

Medical Radiography Gets Accreditation Pass Mark

The Medical Radiography Programme in Bayero University has received a boost from the Radiographers Registration Board of Nigeria (RRBN) after it conducted a pre-professional accreditation exercise with an excellent pass mark recently.

The Board, which sent a two-man team comprising the Registrar of the Board, Mr. Reuben Babatunde, and the Director of the Institute of Radiography, Mr. Michael S. Okpaleke, conducted a two-day verification exercise on the equipment, physical infrastructure and staffing.

Speaking shortly after the exercise, the Registrar, Mr. Babatunde, expressed the Board's appreciation over the installation of modern equipment at the Aminu Kano Teaching Hospital and School of Physiotherapy, Dala and commended the University for laying a solid physical infrastructure that would

facilitate the smooth running of the Radiography Programme.

The Registrar observed that there was the need for the University to employ more capable academic and administrative personnel, as well as equip the library with contemporary Radiography -related resources before the next accreditation exercise.

The team further verified the curriculum, past question papers, marking scheme, lecture notes and advised appropriately.

In an interview, the Head of Radiography Department, Dr. Abdulkadir Tabari, said even though the programme was only in its third year, it received high commendation from the Board and expressed optimism that effort would be mounted to ensure that the programme got full accreditation.

The team conducted the exercise on 14th and 15 March, 2012 and paid a courtesy call on the Vice Chancellor.
