

**32<sup>nd</sup> Convocation Ceremonies:  
Be Worthy Ambassadors of Your Alma  
Mater – Pro-Chancellor Urges Graduands**

*Pro-Chancellor and Chairman Governing Council, Bayero University, Alhaji Mahmud Yayale Ahmed, OFR has urged BUK graduands to protect the good name and reputation 'of this great institution by being good and worthy ambassadors of your Alma mater.'*

The Pro-Chancellor was speaking at the 32<sup>nd</sup> convocation ceremony which started on Wednesday 20<sup>th</sup> April, 2016 at the Convocation Arena, New Campus of the university.

Alhaji Yayale Ahmed said 'certification of any institution goes with the name and reputation of that institution. Bayero University is no exception. I therefore urge you to demonstrate to the public and anyone else that you have indeed earned the degrees being conferred on you today in both character and learning by being worthy ambassadors of your *Alma Mater*,' he remarked.

He told the graduands to consider themselves lucky for graduating from Bayero University, arguably one of the top Nigerian Universities, adding that the university has continued to grow from strength to strength. He said in the last one year, the university has introduced new programmes and established new faculties.

The Pro-Chancellor stated that Bayero University, Kano was known not only for its academic excellence but also for the quality of its leadership, saying that between last year's convocation and the one being witnessed at the moment, the Council has appointed a new Vice

Chancellor and Registrar. The new Vice-Chancellor, Professor Yahuza Bello according to Alhaji Yayale Ahmed has been part and parcel of the administration of the immediate past Vice Chancellor. The new VC has continued with the tradition of openness and inclusiveness. He has been carrying along all members of the university by involving them in decision making, policy formulation and programme implementation. 'This tradition is gradually building a dynamic and harmonious system that is taking the university to greater heights.'

He registered the Council's appreciation to the new Vice Chancellor, his management, the Senate, staff and students of Bayero University for their commitment, dedication and sacrifice.

Earlier in his address, the Vice Chancellor, Professor Muhammad Yahuza Bello who explained why the convocation was staggered said, Wednesday marked the beginning of the three-day activities aimed at 'appreciating, celebrating and savouring the joy that being triumphant brings.'

He said a total number of 7,430 would graduate at the convocation with 4,771 candidates being undergraduates.

The Vice Chancellor stated that in the process leading to his appointment as Vice Chancellor, he pledged to build on the solid foundation his predecessors have laid and to continue building the university, adding 'my priorities are to use these solid foundations and structures to work on ensuring quality in teaching and learning, and excellence in research.'

## GUIDE TO BETTER GRAMMAR

### With Sheriff Ahmed

### Commonly Misused Expressions (3)

Let us continue from where we stopped last week. This week we shall examine seven common mistakes in spoken and written English. Again, take a close look at the underlined expressions.

- She paid her last respect to the family of her late friend.

‘Respect’ as used in this context is incorrect. Used as polite greetings offered somebody, the plural form of the word is usually used – **respects** – as in:

*She paid her last **respects** to the family of her late friend.*

- He said it was the same development with his brother’s.

Avoid, as far as possible, such expression as ‘same...with’ because the two words do not collocate. Note that ‘same’ combines effectively with the preposition ‘as’, as in:

- a. *He said it was the **same** development **as** his brother’s.*
- b. *His problem is the **same as** mine.*

- The Vice Chancellor has just appointed new Heads of Departments.

Please note that ‘heads of departments’ is incorrect English. The correct thing to say/write is: **heads of department; heads of government; heads of state**, etc.

- We must make sure we are always at alert.

The expression ‘at alert’ is incorrect English. It must be stated that the preposition ‘at’ and the noun ‘alert’ do not collocate. The correct expression is **on the alert**, as in:

- a. *President Muhammadu Buhari has warned Nigerians to be **on the alert** for suspected Boko Haram terrorists.*

- b. *The Nigerian Armed Forces have also been placed **on full alert**.*

- I was on the queue when the chairman arrived.

The correct phrase is **in the queue**, as in:

- a. *I was **in the queue** when the chairman arrived.*
- b. *How long were you **in the queue**?*

- Conclusively, President Muhammadu Buhari needs the support and prayer of every Nigerian.

The word ‘conclusively’ is inappropriate in the context in which it is used. A good number of people are confused about ‘conclusive’ and ‘conclude’. If truth be told, the two words are not synonyms. ‘Conclude’ is a verb. It should be noted that the adjective ‘conclusive’ means proving a matter beyond all doubt; decisive; convincing; irrefutable, etc.

Correct: **In conclusion**, *President Muhammadu Buhari needs the support and prayer of every Nigerian.*

Usage: *There’s no **conclusive** evidence that the lecturer harassed the student.*

- The suspected terrorists kept coming in search for food, water and shelter.

The expression ‘in search for’ is a common mistake in English. The preposition ‘for’ is inappropriate in the context. The correct expression is **in search of**, as in:

- a. *The suspected terrorists kept coming **in search of** food, water and shelter.*

**Note on usage:** The word ‘search’ may be used as a verb and as a noun. Used as a verb, ‘search’ combines with ‘for’, as in:

- b. *He **searched** his pockets **for** some change.*
- c. *The teacher advised his pupils to **search for** their missing classmate.*

Used as a noun, ‘search’ may also collocate with ‘for’, as in:

- d. *The search for the kidnappers proved abortive.*
- e. *The search team for the appointment of a new vice chancellor has been inaugurated.*

It should be noted, however, that the expression *in search of* is an idiom, and an idiom is a fixed distinctive expression whose meaning cannot be deduced from the combined meanings of its actual words.

## Health Tips from University Health Sciences

### Can you Recall Some of the Habits and Habitats of Mosquitoes?

- ❖ They are insects of medial importance to man (they transmit diseases) e.g. malaria.
- ❖ They are nocturnal insects i.e. they are more active and feed at night.
- ❖ They only suck blood for meal purposes.
- ❖ They only drop plasmodium parasite (malaria causative agent) in to human blood accidentally.
- ❖ They undergoes completed metamorphosis (egg-larvae-pupa-adult).
- ❖ They use stagnant water to lay eggs e.g. nonmoving gutter, pond and other wet/moist waste and grasses.
- ❖ They always hide in dark, hot and ill ventilated places.
- ❖ University community are hereby advised to embrace environmental measures by clearing of bushes around premises, avoid water stagnation to prevent infestation of mosquito from entering sitting rooms and bedrooms.
- ❖ Always sleep in long lasting insecticide treated mosquitoes' net to prevent mosquitos' bite and malaria transmission.

## **Young Women Mentors for Education Scholarship Programme**

Sponsored by **Peace Corps Nigeria Alumni Foundation (PCNAF)** (Washington DC) and **Inclusive Community Education & Development Association (ICEADA)**, Kano, Nigeria

### ***Programme Overview***

Science and technology are changing the way people live, connect, communicate and conduct business. Science and technology are also key drivers to economic development. However, in Nigeria, very few girls choose to pursue university degrees in science, technology, engineering and mathematics (the STEM subjects).

The Peace Corps Nigeria Alumni Foundation (PCNAF) and the Inclusive Community Education and Development Association (ICEADA) have worked together since 2010 in an effort to eliminate some of the problems that prevent many girls in northern Nigeria from completing secondary education. We created a special scholarship program to help needy girls defray such school-related costs as tuition, books and living expenses for the three years that it takes for them to complete senior secondary school.

We understand the great value of STEM, and how important it is that more secondary schoolgirls in Nigeria take advantage of the STEM related opportunities available to them. We are also aware of the financial difficulties that many undergraduate STEM students face. Therefore, we invite promising female students pursuing undergraduate degrees in STEM subjects at Bayero University Kano to complete the application form for the scholarship award. Successful applicants shall receive the scholarships for the three years that it takes for them to complete their undergraduate degrees.

The students who receive our scholarships will be trained to participate in a special mentoring program designed to introduce our secondary school scholarship recipients to: 1) the benefits of girls' education in Nigeria for themselves, their families and communities, and also for the nation; and 2) career opportunities available to college graduates with degrees in the STEM subjects.

### ***Eligibility Criteria***

Any female undergraduate student of Nigerian heritage is eligible to apply for a PCNAF Scholarship if she:

- Has an overall grade point average (GPA) of at least 3.50 on a 5.0 scale

- has currently completed the first year of a 4 year undergraduate program Bachelor of Science B.Sc special Honours and B.Sc (ED) in the following subjects: Chemistry, Physics, Mathematics, Applied Biology, Zoology, Botany, Microbiology, Bio Chemistry, Computer Science
- Is currently completing the second year of a 5 year undergraduate Bachelor of Engineering B.Eng, or Bachelor of Technology (B.Tech), in any of the following: Agricultural Engineering, Civil Engineering, Electrical Engineering, Computer Engineering, Mechanical Engineering,

**Application forms can be obtained at the following address:**

- 1. Inclusive Community Education & Development Association Office, NO 490 ZAWACIKI CIKIN GARI, NEAR ZAWACIKI SPECIAL PRIMARY SCHOOL, PANSHEKARA ROAD, KANO, NIGERIA**
- 2. ROOM A07, FACULTY OF EDUCATION BUILDING, BAYERO UNIVERSITY KANO**

**NOTE: Only 3 scholars will be selected for 2016/2017**
