Calling All Staff for N.H.I.S Mass Registration

This is to inform all B.U.K staff that the National Health Insurance Scheme (N.H.I.S) officials from Abuja would be around for mass registration of staff of the university who are yet to register with the NHIS, on Thursday 11th August, 2016.

In line with above, all Deans, Directors and Heads of Units are requested to please inform all their staff who had not registered to come forward for their registration at NHIS office Old Campus clinic. Staff are expected to come along with **their passport photograph** and that of **their spouse** and **four (4) biological children below the age of eighteen (18)**.

A circular signed by Inuwa Yahaya Kofar Mata, Desk Officer NHIS in the University Health Service (UHS), said BUK is slated to host the NHIS Team on Thursday 11th August, 2016.

Staff are strongly advised not to miss this opportunity, especially as their enrolment would greatly help to strengthen the facilities and services available across the University Health Services, on all Campuses. The more staff that select the UHS as their health provider, the more support that will flow from the government to help uphold the high quality health services provided to the entire University Community by the UHS.
