Notification on Immunization of Children (Aged 0-5 Years)

Members of the University Community are hereby informed that the last case of polio reported in the state was identified at Ungogo Local Government area. In view of that, the Health Department of Ungogo Local Government, in line with National and State policy on immunization, wishes to commence a house to house polio immunization exercise from Sunday 29th January to Thursday 2nd February, 2017 at New Campus.

According to the Director, University Health Services, Dr. Maryam S. Waziri, “here will also be a team stationed at the New Campus Clinic for parents whose children miss the Sunday home visit to take their children on their way home from school.”

Therefore parents are advised to give maximum cooperation so that the exercise will record high success.
