

Kano State Govt. Offers to Fund Agric Researches in BUK

By Nura Garba

Kano State Government has assured Bayero University Kano that it was ready and committed to fund agricultural researches and promote the application of innovative technologies and utilisation of research outcomes.

The State Commissioner for Agriculture, Alhaji Nasir Yusuf Gawuna, gave the assurance on Monday, 10th July, 2017, while addressing the participants at the opening ceremony of three International Training Workshops organized by the Centre for Dryland Agriculture, (CDA). The International Training Workshops were on *Modeling Organic and Green Agriculture* in collaboration with the Faculty of Agriculture, BUK and Organic Agricultural Project Tertiary Institutions in Nigeria (OAPTIN); The Applications of Remote Sensing and the Geographical Information Systems in Agriculture in partnership with ICRISAT and the Statistics and Data Analysis for capacity building. The Workshops were scheduled to run from the 10th to the 22nd of July, 2017.

Alhaji Gawuna said that promotion of agricultural development was the topmost priority of Kano State Government. He noted that the Federal Government had accorded the sector the needed attention in view of its

significant contribution in the Nigerian economy.

“We are ready to partner with the Centre for Dryland Agriculture and other stakeholders to fund agricultural researches to address the daunting challenges of unemployment, poverty and food insecurity,” the Commissioner assured.

According to him, the State Government had invested much to improve the sector, especially in view of the current economic challenges facing the country.

“Kano State Government is ever willing to fund researches and promote the application of innovations in all aspects of agriculture in order to facilitate the improvement of productivity and to address the challenges of food insecurity,” the Commissioner said. He explained that the State Government was committed to partnering with the CDA and other stakeholders in conducting research, training and the dissemination of research findings.

Alhaji Gawuna appreciated the role of the Centre for Dryland Agriculture, for its foresight in conducting researches and organizing international seminars and workshops aimed at addressing challenges of food insecurity not only in Nigeria but also in Africa.

20th Professorial Inaugural Lecture: Return to Nature for Your Medications - Prof. S.Y. Mudi

By Sabitu M. Jinjiri

A Bayero University academic, Prof. Suleiman Yusuf Mudi, has called for return to drugs derived from natural products, such as plants, in treating multifarious diseases. This is so because there is “no doubt that plants are among the most perfect natural laboratories for the synthesis of various molecules ranging from simple skeleton to highly complex chemical structures...”

The Professor, who is an organic chemist with specialization in natural products drug discovery, was delivering Bayero University's 20th Professorial Inaugural Lecture at Musa Abdullahi Auditorium on Thursday, 7th July, 2017.

According to him, one of the purposes of the lecture was

Professor Suleiman Yusuf Mudi

“to give the general public an idea on the importance of utilizing natural products from plants for treatment of ailments.” Another purpose of the lecture was to “give an inspiration on how natural products chemistry can be utilized in developing herbal remedies and related

products.”

He equally believed that natural products were still effective in terms of “providing their fair share of new clinical candidates and drugs” at the expense of hitches and competition from other drug discovery methods.

In connection with researches carried out by the professor in conjunction with his colleagues and students between 2008 and 2016, some pure compounds isolated from certain plants were shown to have efficacy in treating malaria and to have promising activity against food borne pathogens, ulcers, pneumonia and other respiratory tract infections.

On cancer treatment, Professor Mudi disclosed that “plants and plant-derived products” had proved to be both safe and useful in managing and treating cancers and revealed that, to date, they had isolated thirteen compounds with promising anti-cancer activity.

The also called on Bayero University to provide synergy between traditional herbalists and scientific researchers so as to deal with the risks involving the method of consuming herbal remedies for treatment.

Earlier, the Vice Chancellor, Professor Muhammad Yahuza Bello, informed the lecture attendants that the 20th Professorial Inaugural Lecture had been organized by one of the newest faculties in the university. He also commended the lecture organizing committee for its efforts in relation to ensuring frequent deliveries of inaugural lectures and urged the committee to put more grease to their elbows so as to beat time.

CDA Organises Three International Training Workshops

By Nura Garba

The Centre for Dryland Agriculture (CDA) has organised three international training workshops that are concurrently taking place at the Centre, which commenced on Monday 10th July, 2017.

Two of the workshops, *The 2nd International Advanced Training Programme on Organic and Green Agriculture*, organised in partnership with the Faculty of Agriculture, BUK in collaboration with the Organic Agricultural Project Tertiary Institutions in Nigeria (OAPTIN) and *The Application of Remote Sensing and Geographical Information System in Agriculture*, being held in partnership with the International Crops

International resource persons at one of the CDA conferences

Research Institute for the Semi-Arid Tropics (ICRISAT) are expected to end on 15th July, 2017, while the *International Capacity Building Training on Statistics and Data Analysis* organised by the centre will last till 22nd July, 2017.

Declaring the Workshops open, the Vice Chancellor, Professor Muhammad Yahuza Bello, who was represented by the Deputy Vice Chancellor (Administration), Professor Adamu Idris Tanko, challenged the participants to make good use of the trainings to impact positively on research, training and agricultural development. He expressed optimism that the problems of rising population, food insecurity, poverty and political insecurity in the West and Central African countries would be surmountable if the diverse stakeholders, especially in the field of agriculture, worked to address the challenges of low productivity and non-sustainable use of resources.

He argued that with high calibre human resource and investments in research, training and outreach, Nigeria and other countries of West and Central Africa would

attain food security and sustainable economic development. He further charged the CDA to continue working with stakeholders to attain this goal.

Earlier in his opening remarks, the Director of CDA, Prof Jibrin M. Jibrin, represented by the Deputy Director, Training, Professor S. G Mohammed, said resource persons were drawn from diverse backgrounds and countries including India, Kenya and Ghana.

According to the Director, the trainings were organised to achieve the goal of the CDA at developing high capacity human resources for agricultural development in the dryland countries of West and Central Africa. He observed that the resource persons were seasoned professionals in their fields expected to transfer skills that were most needed by the participants for quality research, innovations, outreach and publications.

The participants were drawn from Universities, Colleges of Agriculture, research institutes, Ministries, departments and higher institutions of learning, as well as faculties and departments in BUK.

National Open University VC Bags Another Chieftaincy Title

By Bala G. Abdullahi

The Vice Chancellor of National Open University of Nigeria (NOUN), Professor Abdalla Uba Adamu, was on Saturday, 8th July, 2017 crowned with another chieftaincy title of Oruakpo of Emevor Kingdom in Isolo North of Delta State. 'Oruakpo title which means The Developer.'

The Monarch, His Royal Highness, the Odion of Emevor, Ovie Solomon Onovughakpor, who crowned the celebrant said Professor Abdalla Uba Adamu deserved the honour in view of the tremendous transformation he had

Prof. Abdalla Uba Adamu after being crowned with the chieftaincy title

brought to the NOUN in less than two years in office.

He said apart from his achievement in the NOUN, he had also demonstrated serious commitment to the establishment and development of Community Centres, a feat that earned him the title of 'The Developer.'

The NOUN Vice Chancellor was in Emevor, Isolo in Delta State to participate in the fund raising ceremony for the establishment of a permanent Community Centre.

In another development, Professor Abdalla Uba Adamu delivered a

thought provoking lecture titled: '*Commodification of Culture: The Political Economy of the Hausa Popular Cultural Industries*,' at the Quarterly Lecture Series of the National Institute of Cultural Orientation (NICO), which took place at the Shehu Musa 'Yar Adua Centre, Abuja on Monday, 10th July, 2017. The paper was later published as a book by the Institute.

At the end of the well-attended lecture, Professor Abdalla was given an Award of Excellence for 'Outstanding Contributions to the Development of Culture in Nigeria'. The award was presented to him by the representative of the Honorable Minister for Information, Alhaji Lai Mohammed.

Inconsistent Policies Bane of Agric Potentials

– Professor Sharubutu By Rabi'u M. Sagir

Professor Garba Hamidu Sharubutu of Federal College of Health and Production Technology, Vom has attributed inconsistent policies, poor infrastructure and lack of encouragement to key players as the major obstacle to harnessing the potentials of agriculture in Nigeria. Professor Sharubutu, who delivered a keynote address at the opening ceremony of three international training workshops organized by the CDA and other collaborators on Monday 10th July, 2017 titled “Modeling Organic and Green Agriculture for Nutraceutical Welfare and Sustainable Environment” expressed that Agriculture is a major contributor to the GDP and job creation in the non-oil sector. He said unfortunately, harnessing these great potentials for Agricultural development had been weakened by the aforementioned factors.

Professor Sharubutu explained that going through the thematic areas and stakeholders involved, there is no specific area that organic agriculture is mentioned. However, stakeholders in organic agriculture can key into some thematic areas; such as re-establishment of National Agricultural Land Development Authority (NALDA), funding of Research and Development in Agriculture through technical colleges, universities and

research institutions.

Professor Hamid expressed that “Nutraceutical is a broad term used to describe any product derived from food sources with extra health benefits in addition to the basic nutritional value found in the foods. Nutraceutical combines two words “Nutrient” i.e. nourishing food

Professor Garba Hamidu Sharubutu

component and “pharmaceutical” a medical drug.”

He said attention has shifted to food supplements in providing preventive and therapeutic remedies to most human and veterinary ailments.

Centre for Reading, Research & Development and other Appointments

The Vice Chancellor, Professor Muhammad Yahuza Bello, has approved the appointment of Mr. Musa Y. Dambele of the Department of Radiography as the Acting Head of Department of Radiography, Faculty of Allied Health Sciences, for two years, which commenced from 3rd July, 2017.

The Vice Chancellor, Professor Muhammad Yahuza Bello, has also approved the appointment of Professor Isa Mukhtar of the Department of Nigerian Languages as Deputy Director of the Centre for Research in Nigerian Languages and Folklore to complete the tenure of Dr. Muhammad Tahar Adam, whose appointment

took effect from 1st May, 2016.

The Vice Chancellor, Professor Muhammadu Yahuza Bello has approved the appointment of Dr. Amina Adamu of the Department of English and Literary Studies as Academic Fellow, Nigerian Centre for Reading, Research and Development for a two-year term, in the first instance, with effect from 7th July, 2017.

The Vice Chancellor, Professor Muhammadu Yahuza Bello has also approved the appointment of Professor Mansur Saleh Kiyawa of the Department of Education as Academic Fellow, Nigerian Centre for Reading, Research and Development for a two-year term, in the

first instance, with effect from 7th July, 2017.

The Vice Chancellor, Professor Muhammadu Yahuza Bello has approved the appointment of Dr. Aishat Umar of the Department of English and Literary Studies as Academic Fellow, Nigerian Centre for Reading, Research and Development for a two-year term, in the first instance, with effect from 7th July, 2017.

The Vice Chancellor, Professor Muhammadu Yahuza Bello has approved the appointment of Dr. Yakubu Magaji Azare of the Department of Nigerian Languages as Academic Fellow, Nigerian Centre for Reading, Research and Development for a two-year term, in the

first instance, with effect from 7th July, 2017.

The Vice Chancellor, Professor Muhammadu Yahuza Bello has approved the appointment of Professor Ismail Abubakar Tsiga of the Department of English and Literary Studies as Coordinator, Nigerian Centre for Reading, Research and Development for a two-year term, in the first instance, with effect from 7th July, 2017.

The Vice Chancellor, Professor Muhammadu Yahuza Bello has approved the appointment of Dr. Aliyu Mu'azu of the Department of Nigerian Languages as Academic Fellow, Nigerian Centre for Reading, Research and Development for a two-year term, in the first instance, with effect from 7th July, 2017.

Old Campus Clinches **SUG Inter-Campuses Trophy**

By Nura Garba

Old Campus has defeated its New Campus counterpart to win the prestigious Student Union Government Inter-Campuses Football trophy with a slim 1-0 defeat.

Sadik Labaran of Applied Biology gave the Old Campus players a life-line with his ferocious volley mid-way into the second half, to send the rapturous fans into wild jubilation.

The New Campus team seemed more determined and looked dominant; using the defensive lapses of the Old Campus, but the strikers of New Campus wasted so many scoring chances.

The two teams resumed the second stanza more composed in search of goal, but all efforts were frustrated by more defensive minded teams.

After seemingly an endless search of goal, Sadik Labaran broke the deadlock from the right flank and volleyed the ball into the roof of the net after a corner kick, was taken.

After the match, the SUG Sports Director, A. Sadik Sunusi described the football competition as an avenue for unifying Bayero University students from all the campuses together and strengthening their relationship.

From left: SUG Sports Director, A. Sadiq, Mohd Limanti, Dep. Director, Student Affairs, former SUG President, El-Gambo and SUG President Tijjani Bilal Paki

Captain Old Campus, Pedro holding the trophy & assisted by other players

Earlier, the Old Campus defeated Aminu Kano Teaching Hospital 2-1; New Campus whitewashed AKTH 3-0 and New Campus and Old Campus shared the spoils of 1-1, before the Old Campus beat New Campus in the final.

Zero Tolerance to Corruption Club (ZTC)

Induction Exercise and Public Anti-Corruption Lectures

We have planned to conduct the above exercise on Tuesday 18th day of July, 2017 at Musa Abdullahi Auditorium New Campus by 10:00am which will feature various anti-corruption experts and human right activists from various agencies and institutions.

The following are the agencies and their topics of presentation:-

Agency: Economic and Financial Crimes Commission (EFCC)

Topic: The role of youth in fighting financial mismanagement in our society.

Agency: Independent Corrupt Practices Commission (ICPC)

Topic: Ways to combat Corrupt practices for better Nigeria.

Agency: Kano State Public Compliant and Anti-Corruption Commission

Topic: The Genesis of Corruption, the present and the future of Nigeria.

Agency: National Human Right Commission (NHRC)

Topic: The Implication of Constitutional Right Ignorance and How to Education the Youths for better transformation of the Country.

Prevent Accident By Using The Correct Vehicle Tyres

Vehicle tyres have expiry date just like the drugs we use for medication. Tyres are manufactured with a shelf life of four years in most cases. Before you buy your next set of tyres make sure that you check for the manufacture date and the expiry period. The shelf life is indicated as E4 for four years, whereas manufacture date is indicated by four numerals in a circle. Please refer to the picture below.

In a letter signed by Dr. A. Y. Abdulfatah, Director Procurement, said the two arrows above show a circle with

four numerals (0308). The first two digits (03) represent the week of manufacture and the last two digits (08) the year of manufacture. This means that the tyre was manufactured in the 3rd week of January, 2008. For a tyre with a date (2413), it means it was manufactured in the 24th week (in July) of 2013. If you add four years (E4) to it, the expiry date would be July 2017. For your safety and economy do not buy tyres manufactured more than a year ago.

Be On Alert, Urges Director of Security

Recent trend in the University Campuses has indicated a disturbing pattern of theft in offices, residential quarters and vehicles. Some of these notorious activities occur without breaking or forceful entry. Others that involve burglary are executed with the active connivance of some members of the University Community residing in the Campuses by virtue of family relationship ties, casual employment, etc. Some of the culprits involved aimed at prayer times (Fajr, Zuhr, Asr) when people are away from offices/residences. In most instances, the criminals resort to the use of master-keys and other gadgets to gain access into residences, offices and vehicles. Similarly, access keys to Offices, Laboratories and Theatres are retained by several persons who compromised the need for effective control, thus enabling ill-intentioned persons to breach the integrity of the structure and render it vulnerable to all forms of security breach.

A letter signed by Muhammad Babba Dan-Agundi, Captain (NN) Rtd, Director Security said generally, the problems of security breach cannot be solved by security personnel alone. Thus, it is important that other well-meaning members of the University community join hands in countering the menace of burglary, vandalism, larceny, impersonation, arson, colluding with criminals and several other vices in the Campus premises. In view of the foregoing, the following security tips are recommended for adoption:

a. Staff/Student Identification checks should be intensified by all concerned, especially when

encountering strange faces. Don't take chances whenever you are in doubt about a person's identity in any circumstance.

- b. During prayer times, at least one or two supporting staff should be designated to watch over access control and offices.
- c. Avoid several duplications of Main Entrance keys to residences, Departments and offices. Also limit the persons entitled to hold same.
- d. Avoid using non certified artisans to carryout replacement jobs, especially on access control doors.
- e. Proper vetting of house-helps and office supporting staff should be adopted prior to employing their services. Under-aged employment should be avoided.
- f. In every uncertain security situation, contact Security Division through the following lines immediately:

HEAD-QUARTERS - 08094086956,
08094087024

NEW CAMPUS UNIT - 07042829723

Guidelines for Undergraduate Second Semester 2016/2017 Session Add/Drop Exercise

This is to inform all interested Undergraduate students willing to add/drop a course (s) for the second (2nd) semester to adopt the following procedure:

- Make sure you have duly registered with the University for 2016/2017 session.
- Make payment via remita (procedure attached)

from 17th July, 2017.

- The portal will be opened from 17th to 30th July, 2017 to only affected candidates.
 - Reprint your CRF and submit it to your Level Coordinator for documentation.
 - The exercise will last for only a week. Closing date for the ADD/DROP is 30th July, 2017.
- N.B:** Make sure you keep a photocopy of your receipt for safe keeping.

2015/2016 Academic Session University Scholarship

The Senate Business Committee (SBC) considered the SIWES results of some programmes in the Faculty of Engineering and the underlisted candidates emerged as the best students of their levels.

The students are to be paid the sum of N40,000.00 each as the Approved University Scholarship Award. The students will present their I.D Cards and the Letters of Award to the Bursary Department for verification.

SEMINAR

Department of Sociology: *M.Sc Research*

Proposal Defense/Ph.D First Seminar Presentation

Presenter 1: Ahmadu Abubakar Suleiman (SPS/14/PSO/00009)

Topic: A Sociological Study of Cattle Rustling in the North Western Region of Nigeria.

Presenter 2: Mairo D. Suleiman (SPS/14/MSO/00032)

Topic: An Assessment of the Women Prisoners' Living Conditions in Minna Old Prison, Niger State, Nigeria

Date: Wednesday 18th July, 2017

Time: 10:00am

Venue: Departmental Board Room

Department of Physics: *Notice of Seminar*

Presentation

Presenter 1: Bashir Haladu (SPS/15/PPY/00003)

Topic: An Evaluation of Heavy Metals Concentration in some selected River Sediments from North-Western Nigeria, using Neutron Activation Analysis.

Chairman: Professor B.I. Tijjani

Presenter 2: Ibrahim Muhammad Adam (SPS/15/PPY/00002)

Topic: Investigating the Effect of Plastic Gear System (PGS) on the Drag Rotor Blades and Efficiency of Vertical Axis Wind Turbine.

Chairman: Dr. U.M. Gana

Presenter 3: Adamu Mohammed (SPS/12/PPY/00001)

Topic: Numerical Modeling of Copper Composite Thin Films for Solar Control Filter.

Chairman: Professor G. Babaji

Date: Thursday 20th July, 2017

Time: 10:00am

Venue: Physics Research Laboratory

Department of Civil Engineering: *Ph.D/M.Eng*

Proposal/Seminar

(a) Seminar

Presenter 1: Rasheed Toyin Owolah (SPS/14/MCE/00031)

Topic: Hydraulic Analysis of Dutse Metropolis Water Distribution Networks.

Supervisor: Dr. Salisu Dan'Azumi

Presenter 2: Abdulaziz Dayyabu (SPS/15/MCE/00005)

Topic: Evaluation of Artisans Depletion in Nigeria's Construction Industry.

Supervisor: Dr. Dahiru Alhassan

(b) Proposal

Presenter 1: Sulaiman Aliyu Umar (SPS/15/MCE/00024)

Topic: Quality and Level of Service Assessment of Kano-

Bauchi Highway.

Presenter 2: Mustapha Garba Jama'a (SPS/15/MCE/00043)

Topic: Effect of Coconut Shell Ash Admixture on the Properties of Concrete.

Presenter 3: Mukhtar Ibrahim Adamu (SPS/15/MCE/00063)

Topic: Seepage Analysis through Embankment Dam, Causes of Failure and its impact (A case study of Goronyo Dam).

Presenter 4: Mustapha Usman Khalil (SPS/15/MCE/00054)

Topic: Analysis of Sediment Transport in a Main Canal of Kano River Irrigation Project Phase 1.

Chairman: Professor M.H. Bichi

Date: Wednesday 19th July, 2017

Time: 12:00pm

Venue: Faculty Conference Room

Department of Nigerian Languages: *M.A/Ph.D Seminar Series Panel A*

Presenter 1: Musa Grema (SPS/12/PHA/00005)

Topic: Linguistic Borrowing: A Morphological Adaption of Hausa Loan Words in Kanuru.

Presenter 2: Muhammad Shuaibu

(SPS/15/MHA/00028)

Topic: Constructional Ambiguity: Phrase Structure Ambiguity vs Transformational Ambiguity.

Date: Wednesday 19th July, 2017

Chairman: Dr. Yakubu Magaji Azare
