CHS Inducts 49 Doctors, 8 Dentists

-Aminu Ado Wakili Emerges Overall Best Graduand

The College of Health Science of Bayero University has inducted 49 medical Doctors and 8 Dentists during which Aminu Ado Wakili has emerged the as overall best graduand as well as the best in Paediatrics, Community Medicine, Surgery and Pathology.

At the 17th induction ceremony of Doctors and the 2nd induction of Dentists conducted on Monday, 29th January, 2018 at the Convocation Arena, New Campus, also Rahilat Lami Abdulkadir emerged best in Internal Medicine and best in Pharmacology while Bilkisu Yakubu Yusif emerged best in Obstetrics and Gynaecology.

The Vice Chancellor, Professor Muhammad Yahuza Bello, at the occasion expressed his happiness on the

gender distribution of doctors among the MBBS celebrants with almost equal proportion among the male and female graduands.

He reiterated the importance of having female doctors in the society and noted, however, that only one female Dentist was among the eight who graduated this time. The balance was reflected more in the subsequent set of dentists.

The Provost of the College of Health Science, Professor Sani Alhasan, expressed delight over the support of the University Management to the College. He also commended the efforts of other stakeholders, particularly agencies and Aminu Kano Teaching Hospital, for working hand-in-hand with the College.

The Chief Medical Director of Aminu Kano Teaching

Hospital (AKTH) at the occasion assured the graduates that, despite the difficulty in employing House Officers, AKTH had delayed their interview until the current Doctors and Dentists had graduated. He assured them of available slots for Housemanship in the hospital.

The Head of Kano State Civil Service and Commissioner for Health both assured the Kano state indigenes who were inducted of automatic recruitment as House Officers in the state Specialists Hospital and chronicled some progress made by the current state government in the renovation of various healthcare facilities as well as the completion of the two hospitals at Giginyu and Zoo Road, which were commissioned by President Muhammadu Buhari on his recent visit to the state.

The commissioner also stated that the state government was in the process of signing a MoU with a reputable healthcare firm that would manage the affairs of the two hospitals under a board constituted by the state Governor.

The peak of the event was the induction conducted by the Registrar of the Medical and Dentist Council of

Nigeria (MDCN) during which the Registrar encouraged the University to expand the College of Health Sciences by establishing a Faculty of Basic Clinical Sciences, as obtained in other colleges of medicine across the country.

The Chairman of the Nigerian Medical Association in his goodwill message welcomed the celebrants to the Profession. He advised the inductees of the importance of the task ahead of them. He reminded them to regard always the internship period as a learning process and learn from all the members of the healthcare team. He urged them to know their limits without inflicting harm on anybody and that they should refer and call for the help of their seniors when they were unsure about something.

The Deputy Dean of Dentistry, Dr Kelvin Omeje, commended the efforts of the University and other stakeholders toward the performance of the College of Health Science. He also noted the efforts of the organizing committee that worked tirelessly to ensure that the induction programme was hitch free.

Date: Tuesday, 6th February, 2018

Time: 11:00am prompt

Buffer Layya at Ease Programme (BLEP)

Buffer Layya at Ease Programme was initiated in 2014 by Buffer Engineering and Management Consultancy Services (BEMCONS) Nig. Ltd in order to give the Muslim ummah the opportunity of discharging the sacrificial ibadat with clean intention as a prerequisite of being accepted by Allah (SWT).

The BLEP Concept

The BLEP concept consists of two categories as follows:

1. Instalment payments over a period of three months before Zulhijja.
2. Complete payment in bulk.

These strategies eliminate chances of distorting the

intention for the ibadat. Any Islamic worship requiring financial expenditure is supposed to be done without any stress or inconvenience. Regular savings over a reasonable period can make any project to be performed easily.

BEMCONS hopes members of the university community and general public will patronise this initiative and use it to seek for Allah's intervention over the numerous problems (unemployment, illiteracy, poverty, and insecurity) facing our society.

"THE BEST DECISION MADE BY ALLAH (SWT) IS THE ONE THAT IS CONSISTENT REWARD EQUAL IT"

Do You Know?

- That BUK consumes a lot of Energy Daily?
 - That Power Supply by KEDCO is Poor?
 - That The University Relies on its Generators for Power Supply to Staff Quarters, Administrative, Academic and Students Areas?
 - That The University Spends a lot of money on Diesel and Generators' Maintenance?
 - That Some Staff members Leave Offices Without Switching off Electrical Appliances?
 - That 1 Extra Hour of Air-conditioning in a Room Uses Energy Enough to Power A TV for a Year?
- ✓ To Reduce Cost and for Our Safety, Help the University by Switchig-off all Electrical Appliances when not in use!
