

We Create Opportunities for All to Study in BUK – VC

The Vice Chancellor of Bayero University, Professor Muhammad Yahuza Bello, has reaffirmed the commitment of the University in providing opportunities and in encouraging all categories of people to acquire knowledge in the University, including the indigent, the elderly and the physically challenged.

Speaking on Tuesday, 1st May, 2018, when he was hosted on Kano's popular *Barka Da Hantsi* programme of Freedom Radio, he said the 25 part-time degree programmes introduced and run by the University at its School of Continuing Education, Goron-Dutse Campus, were aimed at capturing people who could not attend school from Monday to Saturday and as such, the students were assembled on Fridays and Saturdays for their lectures.

Professor Bello expressed delight that the mission for the setting up of the school was achieved because the targeted groups, who had lost hope in furthering their education to the degree level, were given such an opportunity to enroll. They came on Fridays from Lagos, Abuja and other parts of the country for lectures. He explained that the curricula for the part-time degree programmes was the same with those offered by regular students in the University, only that the former have to go through five years to complete their studies.

The Vice Chancellor said more ways were being identified in the University to help female students and the physically challenged as well as the indigent who lacked the means to sponsor their studies. These initiatives included creating crèches in the campuses and conveniences specifically for female students; creating opportunities and accesses for the physically challenged and initiating several scholarships for indigent students to study in the University. The University, he said, identified those needing such help during registration and from their respective departments.

He urged wealthy individuals and organizations to join the efforts of some noble people who provided scholarships for students and helped the University to provide facilities that could facilitate development in the country and the society. He said the door was open for those wishing to help towards building the fortunes of the University. He commended the initiative of TETFund, which has recently

helped some 12 universities for erecting female toilets and conveniences of which Bayero University was among the beneficiaries of the initiative.

The Vice Chancellor said that apart from the scholarships given by Jufatu, Azman, A.A. Rano, Adamu Muazu, etc. The Students' Union Government had adopted a policy that each student should donate additional 200 naira during registration to cater for the needs of the indigent among them. This session, 6 million naira was generated from such contributions of which 4 million naira was used to sponsor such category of students to continue their studies. ASUU members of Bayero University, he added, had agreed to be contributing to the funds from their monthly salaries.

Professor Bello also disclosed some of his achievements during his two year and some months' stewardship as Vice Chancellor, which included carrying unions, staff and students along for enhanced and harmonious relationships. He explained how at the recently conducted 52nd meeting of Congregation, he accounted for the several achievements he recorded, which include making the meeting to hold two times annually instead of just once a year.

He said both teaching and non-teaching staff had benefitted from sponsorship to conferences, trainings and studies both abroad and at home. This, he said, was ongoing, so far as one fulfilled stipulated criteria. He noted also how the University executed many capital projects and other projects sponsored by individuals, including the Dangote Business School, commissioned recently and the ongoing building of additional female hostel at Old Campus by Alhaji Isyaka Rabi'u.

He said the infrastructural projects both completed and ongoing in the University could make one think that the University hadn't had any financial problem. He disclosed that apart from funds for capital projects from the Federal Government, TETFund and Internally Generated Revenue, assistance from individuals and organizations played critical roles in moving the University forward.

BUK to Collaborate with United Nations Information Centre on Student Training

By Bala G. Abdullahi

VC, Prof. M. Y. Bello (left) presenting copies of Annual Report to Dr. Oluseyi Soremekun of UNIC

Bayero University, Kano is one of the fastest growing citadels of learning in terms of academic exploits and infrastructural transformation, not only in Nigeria, but also in the West African sub-region. This was disclosed by the National Information Officer, United Nations Information Centre (UNIC), Lagos, Dr. Oluseyi Soremekun.

He was speaking during a courtesy call on the Vice Chancellor, Professor Muhammad Yahuza Bello, on Thursday, April 26th 2018. Dr Oluseyi stated that he was overwhelmed by the level of infrastructural development across the university a feat he described as unprecedented.

Dr. Oluseyi said it was because of the pedigree of Bayero University that the Nigerian Office of the United Nations Information Centre, Lagos, decided to seek a mutual beneficial relationship through the Universities' Department of Political Science to establish more training on International Relations as well as to enable the centre to key into the mission and vision of the university.

He listed three key areas where he wanted BUK to collaborate with UNIC. These include UN Academic Impact, which he said was an initiative that allowed universities across the world to interact academically through a coordinated network. He said at the moment there were over 1,000 universities as members with only nine from Nigeria, adding that with the rising profile of Bayero University, Kano, the centre thought that it deserved to be a member of the network.

He said the only requirement was for a prospective member to do a research that was of interest to the United States. Such research, Dr. Oluseyi said, was not

different from the usual researches that would promote development.

Secondly, there is the Model UN, which he said, was similar to the workings of the United Nations, adding that students would learn how decisions were taken at the United Nations, particularly at the meeting of members of United Nation's Security Council. 'It is a learning tool for the students,' he remarked.

Aligned to this, is the Model UN Conference, which is also student-driven and is organized by students under the guidance of their lecturers. It is an annual event and every university will organize its conference on a separate date. According to him, it was self-funding, because delegates across member universities pay to attend, adding that the host university will only provide some logistics. He also revealed that the conference is multi-disciplinary, because, according to him, students from member universities from various departments will be attending.

Dr. Oluseyi explained that, first of all, the students would be trained on the organization of conferences. Thereafter, they will take over the organization of the conference.

The third area of proposal for the collaboration, he said, was the Sustainable Development Goals, which, according to him, was a development frame-work with about 17 goals. He stated that in the area of implementation of the goals, academia is often left out, which, they believed was a major lacuna that needed to be bridged.

Dr. Oluseyi said most often, when it came to monitoring the implementation of the goals, civil society organizations were the only bodies allowed to make noise, saying that 'this time, we want to encourage members of the academia to scrutinize and interrogate the goals with a view to ensuring sustained implementation.' He hoped that the management of Bayero University would be willing to accept the collaboration request of the centre.

Responding, the Vice Chancellor, Professor Muhammad Yahuza Bello, thanked the Centre for choosing Bayero University as one of the institutions in the country for the collaboration. He said BUK would be willing to collaborate with the Centre on all the areas listed above, adding that 'we, in BUK, know the beneficial value of networking. As such, we shall not hesitate to immediately link our university to the network. We are also very much willing to host the Model UN conference.

CRNL&F to Convert *Ibada Da Hukunci* Book into *Ajami* - Professor Sammani

By Abubakar Yusuf

The Centre for Research in Nigerian Languages, Translation and Folklore of Bayero University has commenced work to convert a Hausa Islamic book titled *Ibada Da Hukunci* written by the late Sheik Halliru Binji into *Ajami*.

The outgoing Director of the Centre, Professor Sammani Sani, disclosed this when handing over the leadership of the Centre to the new Director, Professor Aliyu Muazu, on Monday 30th April, 2018 at the Director's office.

He said this move was informed by the fact that the book contained important aspects of Islam which were supposed to be read and understood by every Muslim. According to him, most of the students of tsangaya were not able to read in Western education. So, as he said, by converting the book into *Ajami* it would give them the opportunity to read it.

Change of baton, from Prof. Sammani (left) to Prof. Aliyu

Other projects that the Centre started but did not complete were Centre's journal for the past two years, *Fulfulde* Conference to be compiled into a book and other important projects, due to time and financial problems.

Professor Sammani Sani, while congratulating the new Director, said the major problem facing the Centre was financial, so he urged him to work hard to solve it.

In his response, the new Director, Professor Aliyu Muazu, saluted the former Director for the successes he recorded during his tenure and promised to build from where the former Director stopped.

He also called on the staff of the centre to cooperate with him in order to move the Centre forward.

Professor Mu'azu thanked the Vice Chancellor for appointing him as the Director of the Centre and promised to justify the confidence reposed in him.

My Voice is My Greatest Asset- Fati Nijar

By Abubakar Yusuf

Renowned Hausa singer in Kano, Hajiya Binta Labaran popularly known as Fati Nijar, has described her voice as her greatest asset, which Allah (SWT) gave to her.

Hajiya Binta Labaran, who spoke at the *Ga Fili Ga Maidoki* event organized by the Department of Nigerian Languages, Bayero University on Thursday, 26th April, 2018 at Musa Abdullahi Auditorium, said she thanked Allah for giving her the voice that people appreciated.

She said most of the songs she sang were written for her, but she also writes and composes some of the songs. As she said, Allah willing people would hear the song and be happy and appreciate it.

On *Ga Fili Ga Maidoki* Class where she came to assist students to study her songs, Hajiya Binta Labaran thanked the organizers for seeing her worthy to participate in their studies and thanked Bayero University in general for the honour.

In his speech, the course lecturer, Professor Sai'du Muhammad Gusau, said *Ga Fili Ga Maidoki* was organized by the students who offered Hau4301 and Hau 3308 every year to give them the opportunity to have face to face contact with singers for research

Hajiya Hadiza Ado Bayero (left) presenting a gift to Fati Niger

purposes.

He said this year the lecture featured Binta Labaran, popularly known as Fati Nijar. He said she was born in Maradi Niger Republic in the year 1984. But today, as he said, Fati Nijar was living in Kano, Nigeria.

In his remark, the Head of Department of Nigerian Languages, Dr Ibrahim Garba Satatima, urged the

students to use the opportunity by asking the guest singer relevant and important questions that would help them in their studies.

Professor Amadu Zaria, Professor Muktari Yusuf, Professor Aliyu Muazu and Hajiya Hadiza Ado Bayero were among the hundreds of dignitaries who attended the occasion.

NUESA Visits HOD Education

By Rabi'u M. Sagir

The newly elected EXCO of Nigerian Universities Education Students Association BUK Chapter paid a courtesy call on Head of Department of Education, Dr. Bello A. Bello, on Friday, 27th April, 2018 in his office.

The President of the Association, Comrade Nura Hassan Abdullahi, explained that they were at the HOD's Office to seek a blessing and advice that may help them to execute a sound moral administration accepted by all.

Comrade Nura stated that students were in desperate need of a public address system in their classes and appealed to the HOD to provide one, so as to ease and take lectures conveniently within the lecture hall.

The Head of Department of Education, Dr. Bello A. Bello, appreciated the Students Union effort in uniting and creating mutual understanding between students and university management, which is a top secret element that made BUK maintain and sustain its positive

NUESA EXCO in a group photograph with Dr. Bello A Bello (centre) reputation among Nigerian Universities. Dr. Bello urged the student union to create more awareness to the newly admitted students within and after the registration exercise, so as to avoid mistakes in selecting courses. He also advised the union to strengthen their efforts in helping students that had problems of missing results in order to ensure fairness to them. The Department is also trying to erect an e-library for the students to help them to have more access to books on Education that may boost their capacity.

Convert Traditional Folklore to Cartoons

– Dr Usman

By Rabi'u M. Sagir

Bayero University, Kano and Nigerian Folklore Society conducted a 13th Folklore Society Conference and 14th Annual Congress on Monday, 30th April, 2018 at Musa Abdullahi Auditorium.

The President of Nigerian Folklore Society, Dr. Bukar Usman, OON commended the contribution of the Vice Chancellor, Professor Muhammad Yahuza Bello, for the maximum support and reception given towards organizing the conference.

Dr. Bukar urged the Centre for Nigerian Languages and Folklore to capture the interest of Nigerian children

towards converting folklore stories into cartoon films, which would serve as a systematic way of impacting traditional values, norms and beliefs as well as restricting our children from watching movies that were not produced for them.

Earlier, the Vice Chancellor, Professor Bello, applauded the commitment and determination of the Centre and Society for organizing such a wonderful conference that may be of positive value to the citizens. Professor Bello challenged the Centre and the Society to work hard in harmonizing Nigerian and Nigerian types of Orthography in Hausa in order to avoid confusion, especially in the international context. He assured the

Prof. Aliyu Muhammad Bunza, the guest lecturer delivering his paper

centre and society of their maximum support in actualizing their dream.

Professor Aliyu Muhammad Bunza in his lead paper titled: “Folklore and Economic Security in Nigerian” said Folklore was a scientific study of ancient antiquities and its relevance to human socialization and development, which an outsider may perceive as mere entertainment and the preservation of norms and culture. Indeed it was, but it had a deeper significance.

Professor Bunza stated that culture was in-built in us and we cannot do without it. All the human innovation and developments were much related to their cultural background, which motivated all their actions in their struggle to survive and overcome confronting situations and challenges.

Professor Bunza urged that no civilization was possible without the cultural contributions of its inhabitants. In the perception of Hausa Society, Folklore was the most relevant antidote in the treatment of any unwanted issue challenging the rightly guided norms in the society. Hausa popular culture, specifically proverbs, tales, song and poetry were the basic drugs for the treatment of social problems and evil practices.

Prof. Bunza dedicated the paper in memory of the late Alhaji Muhammadu Gambo Fagada (Alias Maibarayi) with special reference to his master-piece, “In praise of thieves”. The points raised therein were radical whistle blowing in poetic styles, which was unprecedented in the history of Hausa oral songs which concentrated very much on the financial and economic crimes committed by Nigerian civil servants, politicians and others.

Professor Adamu Idris Tanko Re-appointed as Chairman, Projects Monitoring, Evaluation and Documentation Committee

The Principal Officers at their 4th (2018) meeting held on Friday, 13th April, 2018, upon consideration of the submission from the Secretary, Projects Monitoring, Evaluation and Documentation Committee, have approved the re-appointment of **Professor Adamu Idris Tanko** as the Chairman of the University Projects Monitoring, Evaluation and Documentation Committee for another period of two (2) years with effect from 13th April, 2018.

Other members of the Committee are as follows:

1. Fatima Binta Isiaku Mohammed, Registrar -

Member

2. Muhammad S. Bello, Bursar - *Member*

3. Mohammed Kabir Shittu, Deputy Director, Internal Audit - *Member*

4. QS. Muhammad Gazzali Munir, Director, PPU - *Member*

5. Eng Bashir Dan Umma, Director, MSD – *Member*

6. Dr. Ado Y. Abdulfatah, Director, Procurement Unit - *Member/Secretary*

Professor Mahmud Sani Gwarzo Re-appointed as Head of Department

The Vice Chancellor, Professor Muhammad Yahuza Bello has approved the re-appointment of Professor Mahmud Sani Gwarzo of the Department of Pharmaceutics and Pharmaceutical Technology as Head of Department for two more years commencing from March 22, 2018.

Dr Bashir A.Z. Chedi Re-appointed as the Dean, Faculty of Pharmaceutical Sciences

The Vice Chancellor, Professor Muhammad Yahuza Bello, has approved the re-appointment of Dr. Bashir A. Z. Chedi as the Dean, Faculty of Pharmaceutical Sciences for another period of two years with effect from 21st March, 2018.

Dr. Abdulhadi Saleh Kumurya Now Dean, Faculty of Allied Health Sciences

The Vice Chancellor, Professor Muhammad Yahuza Bello, has approved the appointment of Dr. Abdulhadi Saleh Kumurya as the Dean, Faculty of Allied Health Sciences for a period of two (2) years, with effect from 1st June, 2018.

Dr. Salim Ali Mohammed now the Dean, Faculty of Basic Medical Sciences

The Vice Chancellor, Professor Muhammad Yahuza Bello, has approved the appointment of Dr. Salim Ali Mohammed as the Dean, Faculty of Basic Medical Sciences for a period of two (2) years, with effect from 1st June, 2018.

HEALTH SERVICES DEPARTMENT

Health Tips on Gastroenteritis!!!

- ❖ **Gastroenteritis** is an inflammation of the linings of the stomach as well as the small and large intestines, which leads to an acute infectious syndrome. It is usually caused by microorganisms, such as viruses, bacteria and parasites secreting toxins that stimulate excessive water and electrolytes loss, thereby causing diarrhoea.
 - ❖ **The signs and symptoms** (are generally similar regardless of the microbe causing the infection). They include:
 - (a) Sudden, Watery diarrhea (b) Vomiting (c) Stomach cramps (d) Nausea (e) Fever (f) Chills (g) Headache
 - ❖ **The disease causing microbes are spread through**
 - The oral-fecal route;
 - Ingesting water or food contaminated with feces,
 - Person-to-person contact, or
 - Direct exposure to contaminated feces.
 - ❖ **Behaviors that increase the likelihood of transmission and** also increase the risk of gastroenteritis include:
 - Failing to breastfeed your baby (up to 12 months of age to provide the best protection)
 - Using a baby bottle to feed your baby (This easily becomes contaminated)
 - Storing cooked food at room temperature for several hours before eating it (This allows the bacteria to multiply).
 - Storing drinking water that could have become contaminated before you drink it
 - Drinking water that is contaminated at source
 - Not washing your hands properly after using the washroom or before preparing or handling food and not disposing of feces hygienically, particularly baby diapers
 - Eating certain higher risk foods, including raw or undercooked meat or poultry, unpasteurized milk or cheese, eggs, fruit and vegetable juices.
 - ❖ **Preventing gastroenteritis:**
 - Always wash your hands with soap and water after using the toilet or changing your baby's nappy.
 - Always wash your hands before and after preparing or eating food.
 - Always wash your hands after touching animals.
 - Always wash salad and vegetables thoroughly.
 - Avoid close contact with others during your illness.
 - Avoid unpasteurized milk, raw meat or raw shellfish.
 - Use separate cutting boards and utensils for raw and cooked meats when preparing meals.
 - Keep your kitchen consistently clean.
- Clean toilet seats, flush handles, taps, surfaces and door handles daily with hot water and disinfectants.

SEMINARS

Department of Medical Laboratory Science: MSc./MPhil./PhD. Proposal Seminar

Presenter 1: Zainab Ibrahim (SPS/16/MML/00023)

Topic: Hematological parameters of patient with chronic kidney disease.

Supervisors: Prof. A. K. Gwarzo and Dr.D.H. Gwarzo.

Presenter 2: Aliyu Bala (SPS/16/MML/00035)

Topic: Use of IL-6, IL-8 and IL-12 as prognostic markers for HBV infection progression to HCC in Northern Nigeria.

Supervisors: Dr. Isah Abubakar Aliyu and Dr. J. A. Bala

Presenter 3: Kaltume BulamaYusuf (SPS/16/MML/00028)

Topic: Parvovirus B19 antigenemia among pregnant women and sickle cell patient in Yobe State.

Supervisors: Prof. M. Y. Gwarzo and Dr. L. D. Rogo

Presenter 4: Muhammad Musa Sabo (SPS/16/MML/00021)

Topic: Evaluation of D-dimers level in type II diabetic patients with and without vascular complication attending General Hospital Potiskum

Supervisors: Dr. M. A. Salim and Dr. A. A. Yusuf

Presenter 5: Safiyanu Wada Ahmad (SPS/16/MML/00022)

Topic: Detection of G6PD Deficiency and sickle cell trait among blood donors in Kano.

Supervisors: Prof. S. Ahmad and Dr. A. A. Galadanci

Presenter 6: Umoru Audu (SPS/16/MML/00050)

Topic: Artemisinin resistant gene (Kelch 13 polymorphism) in *Plasmodium falciparum* in General Hospital Gashua Yobe State.

Supervisors: Dr. I. A. Aliyu and Dr.J. A. Bala.

Presenter 7: Salmanu Hamza Adamu (SPS/16/MML/00025)

Topic: Prevalence of Glucose-6-Phosphate dehydrogenase (G6PD) deficiency among male children SCD patients and its effect on steady state hematological parameters in Murtala Muhammad Specialist Hospital Kano, Nigeria.

Supervisors: Prof. S. Ahmad and Dr. S. A. Ibrahim

Presenter 8: Ahmad Ahmad Hassan (SPS/16/MML/00037)

Topic: interleukins profile in prostate cancer patients in Katsina metropolis North Western Nigeria.

Supervisors: Dr. L. D. Rogo and Dr. U. A. Dutsinma

Presenter 9: Sadatu Bashir Tukur (SPS/16/MML/00026)

Topic: Astudy of human papilloma virus (HPV) subtypes in cervical biopsies in Yola, Adamawa State.

Supervisors: Prof. D. O. Adisa and Prof. A. Z. Muhammad.

Presenter 10: Sa' id Abdulkadir (SPS/16/MML/00038)

Topic: Quantitative analysis of cytokines profile in various stages of Human Papilloma Virus infection among gynecology patients.

Supervisors: Dr. A. S. Kumurya and Dr. J. A. Bala

Presenter 11: Aliko Alhaji Idirisa (SPS/16/MML/00040)

Topic: molecular characterization of entero pathogenic *Escheriachia coli* strain in diarrhea stool of children less

than 5 years of age attending General Hospital Potiskum, Yobe State.

Supervisors: R. S. Sharfadi and DR. A.S. Kumurya.

Presenter 12: Hafsat Alkali Bulama (SPS/16/MML/00043)

Topic: Serological and Molecular detection and characterization of *Chlamydia trachomatis* among infertile female patients attending AKTH.

Supervisors: R. S. Sharfadi and Dr. A. S. Kumurya

Presenter 13: Nnamdi Onyebuchi (SPS/16/MML/00042)

Topic: Serological and molecular detection of *Chlamydia trachomatis* among infertile male patients attending AKTH.

Supervisors: DR. A.S. Kumurya and Dr. I. A. Aliyu.

Chairman: Dr. A. S. Kumurya

Time: 9:00 pm Prompt

Venue: Mini-theater, Faculty of Allied Health Sciences, College of Health Science, Bayero University Kano/AKTH.

Date: 10th May, 2018

International Institute of Islamic Banking and Finance: IIIBF Seminar

Presenter 1: Dr. Aliyu Dahiru Muhammad

Topic: Appraisal of the Application of ICT in Zakat Administration in Nigeri

Presenter 2: Mal Muhammad Auwal Ishaq

Topic: Islamic Financial Innovations and Diversity of Shariah Interpretations: Challenges and Way Forward

Chairman: Professor Binta Tijjani Jibril

Date: Thursday 10th May, 2018

Time: 10:00am

Venue: IIIBF Conference Room

Department of Biochemistry: MSc Completion Seminar

1. Name of Presenter: Mariya Umar Abdulhamid (SPS/14/MBC/00039)

Topic: Bioactive fractions of leaf and seed extracts of *Azadiractha indica* as potential larvicides of Anopheles mosquitoes

Supervisor: Dr YY Muhammad

2. Name of Presenter: Usman Mohammed Ibrahim (SPS/14/MBC/00041)

Topic: Biogas production from orange waste using cow dung as source of inoculum

Supervisor: Dr Sani Yahaya

3. Name of Presenter: Nabila Muhammad Sani (SPS/14/MBC/00020)

Topic: Comparative phytochemistry and nutritional studies of two varieties of Fennugreek seeds

Supervisor: Prof AM Wudil

CHAIRMAN: Dr Sani Yahaya (Dept. of Microbiology)

DATE: TUESDAY 8th May, 2018

Time: 10:00 am Prompt

VENUE: PG Class

Fixture for 2nd Edition of Vice Chancellor's Cup, Staff Inter-Faculty 50 Meter Desert Shuttle Run is Out

This is to inform the University Community that the fixture for the above mentioned competition is out

1st Semi Final

1st and 2nd Position of Group A Vs 1st and 2nd Position of Group B Vs 1st and 2nd Position of Group C

2nd Semi Final

1st and 2nd Position of Group D Vs 1st and 2nd Position of Group E

Final

Day 4: Thursday 10th May, 2018

1st, 2nd and 3rd Position of the 1st Semi Final Vs 1st, 2nd and 3rd Position of the Second Semi Final

Rules and Regulations are as follows:

- Each Faculty shall register its staff (up to 4) for the competition, before the draws.
- Only staff that are 75kg and above are allowed to participate in the competition.
- Staff on sabbatical, visiting or part time appointment are not allowed to participate in the competition.
- Staff with asthma, injuries, congenital or acquired abnormalities of the lower extremities or spine are not allowed to participate in the competition.
- Weight of the participating staff will be taken before he is allowed to take part in the competition.
- List of the participating staff will be duly signed and stamped by the Dean of the Faculty.
- There shall be five groups, which are groups A,B,C,D and E.
- 19 Faculties and Office of the Vice Chancellor shall participate in the competition.
- Each Faculty shall wear the color of their jersey during the competition.
- Date of the competition is 7th – 10th May, 2018.
- Events shall run as shown in the programme.
- All competition shall hold at old campus Desert Pitch.
- Faculties and Office of the Vice Chancellor shall ballot for slots, group A,B,C,D and E.
- Participating staff must produce a form of identification for accreditation.
- The organizing committee's decision on staff is final.
- Only 1st and 2nd position will be taken from each group.
- Reporting time is 3:30pm and the kick off time is 4:00pm.
- Only 15 minutes grace will be given to each Faculty for late arrival.
