

Ramadan Electricity Load Shedding Schedule

The University Management wishes to inform all members of the University Community that a new electricity load shedding schedule has been approved for both the New and Old Campuses.

In consideration of the holy month of Ramadan, Management has graciously approved an additional one hour of power supply for Staff Residential Areas on both campuses. This adjustment is to ease domestic activities during the fasting period.

All members of the University Community are strongly advised to desist from using hot plates, electric cookers, and other heavy electricity-consuming appliances. The use of such items causes power surges and significantly increases electricity bills for the University. Your cooperation and understanding in this regard will be highly appreciated.

Kindly find below the revised Ramadan Load Shedding Timetable:
