

What Makes Kano Longstanding Great Empire ...Prof. Abdalla Uba

By Lamara Garba

From left: Emir of Kano, Alhaji Aminu Ado Bayero, Governor Abdullahi Umar Ganduje, Sultan of Sokoto, Muhammad Sa'ad Abubakar and BUK VC, Prof. Sagir Adamu Abbas

Quest Speaker:
Prof. Abdalla Uba Adamu Daneji

What makes Kano Emirate the most unique and long-standing Emirate in the country are its inherent historiography coupled with its ability to absorb and merge individual national and transglobal identities into a singular Kananci cultural identity.

“Of all the grand emirates of Northern Nigeria, none has the spectacular and expansive history and cultural anthropology recorded like the emirate, now emirates, of old Kano,” says Professor Abdalla Uba Adamu Daneji, a double professor in the Department of Information and Media Studies.

Delivering the first ever Coronation Lecture on Thursday, 1st July, 2021 at the Convocation Arena, the immediate past Vice Chancellor of the National Open University of Nigeria (NOUN), Professor Abdalla Uba, noted that the state of Kano would for a long time to come continue to lead in the admiration of others for its rich cultural heritage and unique way of doing things not only in Nigeria, but in a global arena.

The lecture, titled **Kano Emirate: Yesterday, Today and Tomorrow** was part of the activities lined up for the coronation of the 15th Fulani Emir of Kano, Alhaji Aminu Ado Bayero. Prof. Abdalla also gave the background to the historical evolution of the Emirate and its spectacular contribution to the socio-cultural,

economic and political development of Nigeria in particular, and the West African colonies, in general.

“The Kano Emirate having evolved over one thousand years has undergone tremendous transformation in all aspect of its development. By 2021, Kano has retained its lead as innovatory Emirate incorporating, as it does, not only all the antecedent structures outlined, but also capping it with total acceptance, expansion and development of new ones,” said the University don.

He further argued that both the city, the Emirate and its traditional institutions have immensely benefitted from relative structural and narrative stability, thus, making Kano the most unique Emirate in the country.

Tracing the history of Kano as a ritual city, Professor Abdalla disclosed that the earlier settlers of the city lived at the base of the towering Dala inselberg and located near water ways of Jakara River in which they developed a religious fixation of paying tributes to the spirits of the river. However, the arrival of Bagauda sometimes in 999AD turned the small settlement to a more organized administrative city, thus, providing an organized leadership which they hitherto lacked. This paved the way for the beginning of the Emiral system in the city.

He went further to explain the various transformations of Kano as an mercantile city, a scholastic city, a colonial

city, an industrial city and now a bustling media hub.

In his remarks the Sultan of Sokoto, Alhaji Muhammad Sa'ad Abubakar described emirs as the custodians of our rich culture and tradition and who played a significant role in the promotion and preservation of our cultural heritage.

Also speaking, the Vice Chancellor of Bayero University, Professor Sagir Adamu Abbas, said coronation was a declaration of our hopes for a brighter future as a society. He noted that Kano had an illustrious heritage, which it was hoped Emir Aminu Ado Bayero would use to take the state and the traditional institution to greater heights.

In his speech, His Royal Highness Alhaji (Dr.) r Aminu

Ado Bayero, the Emir of Kano, emphasized the relevance of history in national growth and development. He noted that any society that does not preserve its history and culture is certainly bound to lose its identity.

The Emir commended the Management of Bayero University for the support it had been rendering to the Kano Emirate and said the relationship between the two institutions was inseparable.

The Kano state Governor, His Excellency Dr. Abdullahi Umar Ganduje, pledged that his administration would continue to bring more developmental projects and initiative for the growth and prosperity of the State.

Many traditional rulers from across the country attended the occasion.

NDLEA Partners BUK on War Against Drug Abuse, As VC, Mrs. Ganduje Bag Anti-Drug Campaign Ambassadors

By Nura Garba

The Vice Chancellor, Professor Sagir Adamu Abbas, and the wife of Kano State Governor, Dr Hafsat Abdullahi Umar Ganduje, were conferred with the title of Ambassadors for the campaign of drug abuse and other illicit drug trafficking.

The duo received the investiture when the National Drugs Law Enforcement Agency (NDLEA) commemorated the United Nations International Day against Drug Abuse and Illicit Drug Trafficking on Saturday, 26th June, 2021 held in Bayero University, Kano.

The Kano State NDLEA Commander, Malam Isa Mohammed Likita, said the United Nations had set aside the 26th June of every year to commemorate the war against the cultivation, manufacturing, sale and consumption of illicit drugs and remind the people of the danger associated with the ugly trend in order to draw the attention to take appropriate action.

The Commandant said it was pertinent for the NDLEA to collaborate with Bayero University, Kano in the fight against drug abuse, especially among youth and women, who were vulnerable in the society, saying that research has shown that abuse of drugs remained the catalyst for kidnapping, armed robbery, rape and insecurity. He said that there was the need for collaboration among various stakeholders to nip the ugly situation in the bud.

Presenting a paper on the Effect of Drug Abuse on Females, Dr. Bello Ibrahim of Sociology Department said drug abuse was caused by economic, socio-cultural and psychological factors and that some people were pushed to it by pleasure seeking, anger, frustration and socialization.

Dr. Ibrahim averred that drug abuse was now common among females between the ages 25 and 29, including married women, saying that its negative consequences had lead to poor performance in school, divorce,

difficulties in reproduction, self-destruction and system failure, among many other challenges. He called for stiffer punishment on people caught selling illicit drugs.

He advocated the need for the intervention of the mass media to disseminate information on attitudinal change and called for the commitment of religious and community leaders to join hands with the law enforcement agencies to fight the menace.

The speaker also called for government to fund the law enforcement agencies, such as NDLEA, and that the promotion of moral and ethical behaviors in the Nigerian institutions should remain sacrosanct.

In her remarks, the wife of Kano State Governor, Dr. Hafsat Ganduje, commended BUK and NDLEA for coming together to organize such an important sensitization seminar with the aim of addressing the social menace militating against the development of the society. She said it would be suicidal to fold arms and allow the girl-child and women to partak in drug abuse, saying that would not be tolerated.

She advocated for a door to door campaign to track offenders with a view to bringing them to book, calling for community and religious leaders to take huge responsibility of protecting the society against the vice.

While declaring the day open, Mrs Ganduje recommended for the screening of civil servants during employment, so that culprits would be detected in good time.

Earlier in his address, the Vice Chancellor, Professor Abbas said it was an important gathering for BUK and Kano people especially when the state was recording high rates of drug abuse. He said it was unfortunate that majority of those abusing drugs are the youth, who were expected to be the leaders of tomorrow. "If such trend continues, the future of the society looks absolutely

Ganduje, Barau Jibrin Donate Two Buses to SUG

By Lamara Garba

Governor Abdullahi Umar Ganduje and Senator Barau Jibrin have donated two brand new 18 seater Toyota buses to the Students Union Government (SUG) of

university in shuttling students to and from campuses as well as help SUG in attending other union activities outside Kano.

VC, Prof. Sagir A. Abbas receiving the keys of the donated vehicles from SUG President, Sadi Garba Sa'id

Bayero University, Kano.

Presenting the two vehicles to the Vice Chancellor, Professor Sagir Adamu Abbas, the outgoing President of the Student Union Government, Comrade Sadi Garba Said, said the buses were given to the union to ease transportation difficulties.

Comrade Garba Said, who was full of happiness and excitement, said two vehicles would go a long way in complementing the efforts of the management of the

While receiving the keys of the vehicles, the Vice Chancellor, Professor Abbas, said such a gesture would go a long way in cementing cordiality between the university and the host community.

Professor Abbas commended the duo of Ganduje and Barau for the gesture and urged other wealthy philanthropists to emulate them.

The Vice Chancellor noted that the burden of education was too much for government alone to shoulder, hence, the need for collective effort by all and sundry.

He, however, charged the SUG to make good use of the donated buses, saying the management would do everything possible to ensure the promotion of good welfare for students and provide an environment conducive for learning.

The Vice Chancellor equally advised the students never to allow themselves be used by some disgruntled elements to cause havoc in the university. He charged them to pay more attention to their studies so as to be the leaders of tomorrow.

BUK Hosts Visually Impaired 2021 UTME

By Adamu Garba

No fewer than 60 visually impaired candidates participated at BUK Centre in the 2021 Unified Tertiary Matriculation Examination (UTME) organized by the Joint Admissions and Matriculation Board (JAMB).

The UTME for the visually impaired candidates which took place between Wednesday 30th June to Thursday 1st July, 2021 at the School of Continuing Education, BUK, aimed at giving equal opportunity to the blind.

The Coordinator of Kano Centre of the JAMB Equal Opportunity Group, Professor Muhammad Yahuza Bello, who is the immediate past Vice Chancellor of Bayero University, disclosed that the goal of the Prof. Ishaq Oloyede-led JAMB was to ensure equal opportunity to all candidates. He added that no eligible candidate was prevented from taking the UTME regardless of any disability.

“As long as the candidate meets the minimum requirements for admission in the university of choice, he or she should have a good chance of placement into any university,” he explained.

According to him, the initiative introduced by the JAMB had been practiced since 2007 in several centres across the country.

Visually impaired candidates writing the 2021 UTME

“So far, a respectable number of blind candidates processed through the JAMB Equal Opportunity Group have secured admission into tertiary institutions,” he said.

Professor Bello said the Equal Opportunity Group was made up of senior academics, including experts in special education and other relevant stakeholders.

FEES Organizes Seminar Series on Talking Environment

By Aisha Hassan

Geospatial technology is an essential technology that is needed to address all the social, economic and environmental challenges currently facing the country, the Director General/CEO, National Space Research and Development Agency, (NASRDA), Dr. Hallilu Ahmed Shaba, stated when he made a presentation on the topic, **Geospatial Technologies and Real-time Solution: Potentials, Challenges, and Nigeria's Readiness** on the 23rd of June, 2021 at the Faculty of Earth and Environment Sciences during the monthly talking environment seminar.

Dr. Shaba spoke on the constituents of Geospatial Technology, which included Satellite communication, Remote sensing, Global Navigation satellite systems and Geographic information system, Geospatial technology offers a wide range of innovative and cost effective solutions for environmental sustainability.

He noted that many countries including Nigeria now appreciate the relevance of geospatial technology in the sustenance of their environment. He also mentioned some application areas of geospatial technologies like mapping and management of the marine ecosystems, disaster management, agriculture, food security and climate among others.

The NASRDA boss further explained the roles of the Navigation System, Global Navigation Systems (GNSS), Earth observation satellites and GIS in real-time monitoring of event, saying that recent advancement in geospatial technology now enabled monitoring the environment near real-time. This is made possible through the increased presence of EO satellites in orbit, providing satellites images on a daily, weekly and monthly basis.

He disclosed that the role of NASRDA in aiding Geospatial technologies in Nigeria was brought to the lime-light on

the launch of six satellites, which were Nigeriasat-1(2003), NigComSat (2007), NigeriaSat-2(2011), NigeriaSAT-X (2011), NIGCOMSAT-1R (2011), Nigeria EduSat-1 (2017). Other roles of NASRDA in advancing geospatial technology in Nigeria include the reactivation of the NASRDA road map, increased collaboration with both public and private organizations, capacity building and increased institutional reach.

However, he disclosed some challenges of Geospatial Technology in Nigeria to include, among others inadequate funding of programs and projects, lack of access to cutting edge hardware and software to bridge the current gap, lack of an enabling environment to support and promote the use of advanced computational systems and machines and poor policy implementation in the adoption and adaption of geospatial technology in critical areas of governance.

In the aspect of readiness, factors hindering the growth of geospatial development must be dealt with, factors such as low education and outreach programs on geospatial, administrative bottlenecks, corruption, lack of synergy among MDAs/private sectors, poor educational system and the inability to pursue the technological development of the country holistically, the problem of unstable power supply and communication pitfalls, to mention a few.

In attendance were the Dean of the Faculty, Prof. Ibrahim Baba Yakubu, HOD's, other Principal Officers of the faculty and also the representative of the MD Hadeja Jamare River Basin Authority, Alhaji Ibrahim Tudunwada.

The Dean of the Faculty, Professor Ibrahim Baba Yakubu, said the seminar series was part of the activities aimed building staff capacity for enhanced teaching and research.

Ga Fili Ga Mai Doki is an Educational Program - Prof. S. M. Gusau

By Abubakar Yusuf

Ga Fili Ga Mai Doki, a yearly Program organized by the Department of Nigerian Languages, Bayero University, Kano has been described as an educational program that will

be useful not only to students but to the University Community, the coordinator of the Program, Professor Saïdu Muhammad Gusau, said on Sunday 27th June 2021 at

Attahiru M. Jega Theatre.

Speaking during the 2021 yearly activity, Professor Gusau said the program was aimed at bringing the students of Hausa courses and Hausa Musicians together to discuss the life history of the musicians and their songs. "It is a forum that will give the students an access to the Hausa Musicians and ask them some questions regarding their life history and some of their songs".

Professor Gusau explained that this year's program hosted the singer, Aminu Ladan Abubakar (*Alan Waka*). He thanked him for honoring the invitation.

In his speech, the Chairman of the occasion, Professor Abdalla Uba Adamu, of the Faculty of Communication, thanked the Coordinator and the initiator of the Program, Professor Gusau, for creating the forum, which, according to him would assist in documenting Hausa songs.

Professor Adamu, who was the immediate past Vice

Chancellor of National Open University of Nigeria (NOUN), donated some Hausa songs, which were recorded in 1952 and taken away by colonial masters to the Department of Nigerian Languages. “I got the songs in Swaziland and brought them back to Nigeria,” said Prof Adamu.

The Dean of Faculty of Arts and Islamic Studies, Dr Ibrahim Garba Satatima, who is also the Head of Nigerian

Languages Department, promised that the department would continue to support programs that would continue to benefit students in their studies.

In his remarks, (Dr) Aminu Ladan Abubakar, thanked the organizers of the program for inviting him to be part of the occasion. He said this was not the first time he featured in the program, saying that he was always ready to be in the University if the need arises.

Director of Sports Visits College of Health Sciences

By M. D. Nasir

The University Director of Sports, Malam Usman Salihi, was at the College of Health Sciences with his team on Wednesday, 23rd June 2021, on the invitation of the Provost to inspect the premises of the College with a view to determining the type of sporting facilities needed in the College.

The Provost, Professor Ibrahim Adamu Yakasai, represented by the Deputy Provost (Administration), Prof. M. K. Atiku, who received the team noted that the importance of sports generally was vital. In particular, he said the management of stress and the development of sound mental health were very critical in human life, hence the need for regular physical exercise. He said that the availability of sporting equipment in the College would enable students and staff to perform well in the University-based sporting competitions.

“It was for these reasons that the College solicited the assistance of the Directorate of Sports in the provision of adequate sporting facilities for use by both students and staff, especially those in the three AKTH-based faculties: Allied Health Sciences, Clinical Sciences and Dentistry,” said Professor Atiku.

In his remarks, the Director of Sports, Mallam Usman

Salihi, assured the Provost that the Directorate would do the needful to forward a Situation Report to the Vice-Chancellor on the subject for consideration and provision of sporting facilities.

Deputy Provost (Admin), CHS, Prof. M.K. Atiku and other Management in a group photograph with officials of College and Sports Directorate during the visit

He also requested the Provost to consider allocating an office space to their staff, who would be coordinating the sporting activities in the College.

Three TETFund National Research Monitoring Teams Visit BUK

By Fausat A. Opayomi

Bayero University Kano will continue to do a lot in terms of research and development so as to create positive impact in Nigeria.

The Vice Chancellor Professor Sagir Adamu Abbas said this while receiving three separate group of TETFund

VC, Prof. Sagir A. Abbas (sitting of the centre) with other Management in a group photograph with Monitoring Team of TETFund NRF

monitoring team on Tuesday, 22nd June, 2021 at the VC's Board Room.

The Chairman of one of the team, Professor A.M. Balogun, who is also the former Vice Chancellor of Federal University of Technology, Akure, explained that his team was in Bayero University, Kano to monitor and evaluate the research projects awarded to researchers in the University.

He said the team was to monitor specifically research on land and water and gauge its impacts on agriculture in the Niger Basin and the problem associated with the use of land for agriculture. He applauded the effort of the Vice Chancellor, Professor Abbas for being up and doing in research efforts and advised that he maintain the tempo.

Professor Balogun, said the Executive Secretary of TETFund Professor Suleiman Elias Bogoro, together with the board members, were doing everything possible to encourage research activities in Tertiary Institutions, adding that TETFund would continue to support Bayero University.

Also speaking, Professor A.M.Kundiri, the immediate Past Vice Chancellor, Federal University Wukari, who led the second team, said BUK had carved a niche for itself in the area of research and development. He, however, observed

that there was the need for the University to play its proper role in terms of mentoring other Universities that were just coming up.

He said BUK's Centre for Dry Land Agriculture was a very good Centre that would help in addressing food shortage that Nigeria was grappling with and urged the University to take centre stage in solving the problem.

The third team, which was headed by Professor Shola Aderounmu, thanked the Vice Chancellor, Professor Sagir Abbas, for his warm reception. He explained that the team was in BUK to monitor and verify research project funded by TETFund.

He commended the Vice Chancellor for the giant strides in the University, which he hoped would be replicated in other Universities. He said the team was in BUK on behalf of the ES, TETFund, Professor Bogoro, to look at progress

report on the research project on the current status of Artemisinin Based Combination Therapy (ACTs) and the Revalidation of Chloroquine Efficacy in the treatment of Malaria in North-western Nigeria, to know the level of performance and the challenges the team was facing through interaction with the research team.

The Vice Chancellor, Professor Abbas in his response said the teams should not hesitate to point out if the University was doing the wrong thing, adding that TETFund had no doubt taken the centre stage in encouraging academics to give more attention to research.

He explained that the three monitoring teams were in BUK to monitor the grants awarded to groups of researchers in the University by reviewing their progress reports and see how the grants were being utilized. He said the University Management was willing to listen to any observation so as to give room for improvement.

CDA, JR Biotek Foundation Conduct Training Workshop on Molecular Laboratory

By Nura Garba

The Centre for Dryland Agriculture (CDA) and JR Biotek Foundation conducted a hands-on plant molecular biology laboratory training workshop held at the CDA from 28th to 2nd July, 2021.

The training workshop funded by the Global Challenges Research Fund was part of JR Biotek Foundation's Reach and Teach Science in Africa flagship program, which aims to advance agricultural research and innovation to achieve food security in Africa.

Speaking through zoom platform, the founder and President of JR Biotech Foundation, Dr. Carol Ibe, expressed pleasure in welcoming outstanding early-career agricultural researchers from Nigerian universities and research institutes to participate in this high quality laboratory training facilitated by excellent researchers.

She said the training workshop would avail the participants the opportunities to learn new transferable scientific laboratory skills and connect with other researchers, possibly leading to new professional relationships and collaborations that may promote new avenues and perspectives to solving Africa's challenges.

According to her, JR Biotech Foundation's vision was to train, inspire and empower Africa's present and future research and bio-industry leaders, who would effectively tackle food and nutrition insecurity on the continent.

Dr Ibe further commended the immense contribution of CDA, saying that "we can work together to transform Africa's agricultural sector into a productive, effective and efficient sector that provides useful opportunities and practical solutions to sustainable food production."

In his welcoming remarks, the Director, Centre for Dryland Agriculture (CDA), Professor Jibrin Mohammed

Jibrin, said the training was apt and timely, considering the geometrical increase of population without corresponding food production in Africa and the persisting food loss. "We have problems of pest and diseases which devastate our crops. In Africa the loss is so high."

The Director further said that there was a need for cutting edge science and knowledge of molecular biology to address some of the problems that constrained food production, which the training workshop provided. He urged the participants to learn well and apply the knowledge into practice to help solve the perennial Africa's food security challenges.

"You can also train others so that we have mass human resources that can assist in tackling our problems," said the Director CDA, Professor Jibrin.

The main objective of the laboratory hands-on session is to demonstrate the basic principles of molecular biology, including the Polymerase Chain Reaction (a technique used to amplify genomic DNA from plant or animal tissues), complimentary DNA synthesis by reverse transcriptase, real-time or RT-PCR, and the phenotypic characterization of root infecting mutualistic fungi in maize and peanut.

In addition to the hands-on training is a Bio innovation for Africa Pitch Challenge developed to encourage African scientists and stakeholders to work more collaboratively to develop solutions to some of the most pressing challenges hampering Africa's sustainable development. This initiative is the 4th edition whilst previous editions have led to the creation of innovative projects (in Africa) that are making a huge impact on smallholder farmers and farming systems in the region.

3rd CDA Monthly Industry Talk

This is to invite members of the University Community to the 3rd Centre for Dryland Agriculture (CDA)- Industry Talks scheduled as follows:

Guest Speaker: S.R Balasubramanian, Country Head, Nigerian Operations, JAIN Irrigation Systems Ltd (JISL), India

Topic: Efficient Water Management and Optimization of Inputs for Reducing Cost of Production and Enhancing Productivity in Agriculture

Discussants:

1. Mrs Karima Babangida, Director, Federal Department of Agriculture, Federal Ministry of Agriculture and Rural Development

2. Alhaji Ma'amun Da'u Aliyu, Managing Director, Hadejia Jama'are River Basin Development Authority

Date: Tuesday, 6th July, 2021: **Venue:** CDA Conference Hall. Time: 2pm to 4pm

Zoom Meeting ID: 81320144315. **Pass code:** 506273

The Vice Chancellor
PROFESSOR SAGIR ADAMU ABBAS, FMAN
On behalf of the Entire University Community
Invites the General Public
to the

48TH PROFESSORIAL INAUGURAL LECTURE

TOPIC: FROM DIVIDENDS' OPTIMISM TO DASHED HOPES:
The Imperatives of Leadership Re-Engineering in Nigeria

PRESENTER
Professor Kamilu Sani Fage
B.Sc. (Pol Sc.), MPIA, PGD, MPA, PhD
Department of Political Science
Bayero University Kano, Nigeria

CHAIRMAN
PROFESSOR SAGIR ADAMU ABBAS
Vice Chancellor
Bayero University, Kano

8 Thursday,
8th July, 2021

10:00AM

**Convocation Arena,
BUK New Campus**

ANNOUNCER: Professorial Inaugural Lecture Committee

SEMINARS

Department of Business Administration and Entrepreneurship: *M.Sc. VIVA sessions*

Presenter 1: Umar Al-Amin Abdullahi (SPS/15/MMN/00015)

Topic: Effect of capital structure on firms financial performance: Evidence from oil companies in Nigeria.

Supervisor: Dr. Mukhtar S. Aliyu

Reviewer: Prof. G. B. Bello

Presenter 2: Hauwa Magaji Musa (SPS/14/MMN/00002)

Title: Effect Cooperate Governance on the Financial Performance of Listed Deposit Money Banks in Nigeria.

Supervisor: Dr. Bala Ado Kofar Mata

Internal Examiner: Professor Garba Bala Bello

Presenter 3: Sha'aibu Abubakar (SPS/15/MMN/00006)

Title: Effect of Divided Policy on the Performance of Some Listed Consumer Goods Companies in Nigeria.

Supervisor: Dr. Bala Ado Kofar Mata

Internal Examiner: Professor Aminu Kado Kurfi

Presenter 4: Ahmed Abubakar Lamu

(SPS/15/MMN/00023)

Title: Effect of Innovation on the Performance of Small and Medium Scale Enterprises in Gombe State Metropolis.

Supervisor: Dr. Bala Ado Kofar Mata

Internal Examiner: Dr. Najafi Auwalu

Presenter 5: Felista Ngozi Abasili (SPS/15/MMN/00010)

Title: Effect of Reward on Employee Performance in Some Selected Commercial Banks in Kano State.

Supervisor: Professor. Mukhtar Halliru

Internal Examiner: Professor. Garba Bala Bello

External Examiner: Prof. Bello Sabo, Department of Banking and Finance, Ahmadu Bello University, Zaria

Date: Wednesday and Thursday, 7th and 8th July, 2021

Time: 10am prompt each day

Venue: LT A, Dangote Business School, BUK

Malam Mushafi'u Salaudeen of the Sport Directorate wishes to invite members of the University Community and the General public to his wedding fatiha with his fiancée **Khadija Mansur Majidadi**, scheduled to take place as follows:

Date: Saturday, 31st July, 2021

Departure time: 10:00am

Time: 1:00pm

Venue: Kafur, Kofar Fada, Gidan Alhaji Idris Soja, Katsina State

Appreciation from Dr. Salisu Dan'azumi

Prof. Salisu Dan'azumi of the Department of Civil Engineering and Aliyu Yakubu Yusuf of the Department of English and Literary Studies wish to express their appreciation and gratitude to the Vice Chancellor and his Management Team, the ASUU Team, Members from the Faculty of Engineering, Faculty of Arts and Islamic

Studies and School of Postgraduate Studies as well as the entire University community, who visited or called them to register condolences over the death of their father who died on Friday 25th June 2021. Thank you very much and may Allah reward you abundantly.

BAYERO UNIVERSITY, KANO

(Office of the Vice-Chancellor)

INTERNAL AND EXTERNAL ADVERTISEMENT FOR THE POSITION OF REGISTRAR

Applications are invited from suitably qualified candidates for appointment to the post of Registrar of Bayero University, Kano.

QUALIFICATION

Candidates should be graduates with a good honours degree from a recognized University. Possession of Postgraduate qualification and membership of professional bodies would be an added advantage. Candidates must have at least fifteen (15) years administrative experience, at least ten (10) of which must be at a University level, and must be on the level of Deputy Registrar or higher. Candidates must be 60 years or below on appointment and must be Information and Communication Technology (ICT) compliant. Candidates must command respect and have the ability to provide leadership and offer appropriate advice on matters affecting the University.

DUTIES

The Registrar, as Principal Officer, is the Chief Administrative Officer of the University, responsible to the Vice Chancellor for the day-to-day administrative work of the University, except with regard to matters of finance to which the Bursar is responsible.

The person holding the office of Registrar shall, by virtue of that office, be Secretary to Council, the Senate, the Congregation and Convocation.

CONDITION OF SERVICE

The successful candidate will be entitled to the salary and conditions of service applicable to a Registrar in a Federal University in Nigeria.

METHOD OF APPLICATION

Interested candidates should submit twenty (20) copies each of application letter and comprehensive Personality Profile attaching copies of relevant credentials under confidential cover in an envelope sealed and marked **POST OF REGISTRAR** on the top right corner and addressed to:

The Vice Chancellor
Bayero University
PMB 3011
Kano – Nigeria

REFEREES

Candidates are advised to request three (3) of their Referees to forward confidential report on them to the **Vice Chancellor, Bayero University, Kano**.

CLOSING DATE

All applications and Referees' reports should be submitted not later than six (6) weeks from the date of this publication.

Signed
Professor Sagir Adamu Abbas
VICE-CHANCELLOR
