

BUK to Strengthen Partnership with Imperial College, NRI, University of York in UK

By Nura Garba

In a significant move to foster international collaborations and enhance research capabilities, a team from the Centre for Dryland Agriculture (CDA), led by the Vice Chancellor, Prof. Sagir Adamu Abbas, recently embarked on partnership visits to some leading UK universities.

The visits aimed to strengthen the existing partnerships and explore avenues for joint teaching and supervision, staff and student exchange, cutting-edge research, and establishing long-term partnerships that would benefit both institutions.

Other members of the team were the Director of CDA, Professor Jibrin M. Jibrin, the Deputy Director (Training), Prof. S. G. Mohammed, the Deputy Director (Outreach and Publications), Prof. A. Mustapha, and the Dean of the Faculty of Earth and Environmental Science, Prof. A. S. Barau.

The visit started with the Natural Resources Institute (NRI) at the University of Greenwich, which has been a long-standing partner of the CDA. In 2017, NRI academics conducted the first international gap assessment of the CDA programmes and curricula prior to a review in 2018. This eventually led to international accreditation for the CDA programmes. Academics from BUK and NRI have collaborated in grant seeking and research.

Recently, NRI has been hosting and co-supervising CDA's PASET PhD students in a sandwich programme, while CDA is hosting NRI's postdoctoral fellows. Professor Ben Bennet and other staff of the institute welcomed the BUK team. Discussions were centered on strengthening the partnership to explore other areas, including online teaching, collaborative research, and opportunities for student and faculty exchange programs. The BUK team was taken on a tour of the Food Science and Nutrition Laboratory at the institute.

At the University of York, the team was received by Elisha Witcomb (Global Partnership Manager) and Prof Lindsay Stranger, who serves as a member of the CDA Scientific Board, co-supervisor of some postgraduate students and a partner in several CDA's research projects.

BUK team at York University

Presentations were made by Professor Jane Hill (Deputy Head of Department and Chair of Research Committee, Biology), Professor Johan Kuyienstierna (Stockholm Environmental Institute), Professor Rob Merchant (York Environmental Sustainability Institute) and Professor Ian Graham (Centre for Novel Agriculture Products). Discussions after the presentation were productive, focusing on the need for interdisciplinary research, air quality and emission inventory. An important outcome of this visit was the agreement on the need to be more deliberate in proposal writing and embed funding for online teaching component in proposals.

Another area of interest is for collaboration on capacity building on the use of Low Emissions Analysis Platform (LEAP) of the Stockholm Environment Institute.

The third institution visited was the Imperial College situated in the heart of London. The university, renowned for its excellence in science, engineering, and medicine, is

Haruna Aliyu Takes Over as New Registrar ...Solicits Prayers, Support

By Nura Garba

The 7th Substantive Registrar of Bayero University, Kano, Malam Haruna Aliyu, on Tuesday, 27th August, 2024 received the handing over notes of the Registry Department from Malam Mustapha Aminu, who was overseeing the Department. The Registrar said he was speechless with the outpouring positive remarks showered on him from all the length and breadth of this country.

The Registrar recalled his good times with the former Registrar, Malam Jamil Salim, who died on 26th April,

The Registrar, Haruna Aliyu (right) receiving the handing over notes from Malam Mustapha Amionu (left)

2023. He said he had learnt many things from the late Registrar, saying he had left a vacuum that would be difficult to be filled. He said with prayers, sacrifice and goodwill, those challenges would be surmounted.

He said he would introduce a forum of Directors and Deputy Directors that would discuss issues related to proper manpower planning, training and development, conflict resolution and transfer system, which must be scrutinized before it is done.

“There will be an on the job training for some staff to be attending some high profile meetings to know their

ranked 2nd in the world and 1st in Europe by the QS World University Rankings. The BUK team was received by Prof. Richard Craster, the Dean of the Faculty of Natural Sciences and other colleagues including Dr Martin Dallimar, who is a research partner of the CDA, formerly at the University of Leeds and now a staff of Imperial College.

There were presentations from the Centre for Environmental Policy and CABI. Both institutions agreed on the importance of fostering innovation through joint research projects, online teaching and student exchange. During the visit, opportunities to respond to a call on a grant for student exchange and project accelerator fund for a joint workshop at the Imperial College were identified. The visit concluded with a working lunch where the Vice Chancellor emphasized the importance of global partnerships in enhancing the visibility of Bayero University Kano.

rudiments, compositions and how to write good reports and minutes for best practices. It would also help the staff to be familiarized with the system of the Establishment, Directorate of Examinations and Records and others.

He said the Registry has planned to constitute an Appointments and Promotions Coordinating Committee to supervise what the main committee is doing to ensure best practices and same with admissions to supervise how admission is conducted.

“We will constitute a Registry ICT Development Committee to train staff on permanent basis three months . Also, heads of units must make presentations on their units. This presentation would prepare them to be more competent. He added that the Registry Department would strengthen mentorship so that young staff would be blended to be more productive in the system.

He prayed for cooperation and support. He charged members to come to work in good time, we have to comply with this to save the image of the Registry. He appreciated the acting Registrar, Hajiya Amina Umar Abdullahi for doing a great work. He prayed to Allah to grant her in future endeavours.

While presenting the handing over notes, Malam Mustapha Aminu, on behalf of the former Acting Registrar, said it was a historic day in the annals of the University, as he was handing over to one of the highly committed and competent persons, Malam Haruna Aliyu. He described him as an accomplished administrator. He urged the Registry staff to extend their hands of support and assistance to the Registrar in order to move the University forward.

Earlier, some senior Registry staff showered goodwill messages showing their solidarity and support to the Registrar. They prayed for his successful tenure in office. Those spoke are: the Director Establishment Matters,

Malam Shehu Galadima, the Deputy Registrar in charge of School for Continuing Education, Hajiya Altine Maryam Ali, the Secretary of the College of Health Sciences, Hajiya Binta Yahaya Kofar Naisa, the Deputy Registrar in charge of Students Affairs, Hajiya Anisatu Uwais and the Head of

Legal Affairs, Barrister Hadiza.

At the end of the handing over ceremony, the Registry staff commended the Vice Chancellor, Professor Sagir Adamu Abbas for his immense support to the Department.

Council Applauds Professor Hadiza Galadanci's Research Breakthrough ...Urges other Researchers to Emulate

By Lamara Garba

Members of the University Governing Council have commended the rare research breakthrough in maternal mortality and morbidity in child delivery conducted by the Africa Centre of Excellence for Population Health and Policy (ACEPHAP) under Professor Hadiza Galadanci, which led to the global change of policy by the World Health Organisation (WHO).

The Chairman of the Council, His Excellency, Alhaji Nasiru Yusuf Gawuna, who led other members on a tour of the University's Centre and other facilities on Friday, 23rd August, 2024, in particular singled out Professor Hadiza Shehu Galadanci for "making Africa in general, Nigeria in particular and specifically Kano State proud by her research discovery which has now become a global

Earlier, the Director of ACEPHAP, Professor Hadiza Shehu Galadanci, while briefing the Council and Management, disclosed that the centre, established about a decade ago, has attracted international students from across African countries including Ghana, Kenya, Gambia, Burkina Faso, Niger Republic and Cameroon among others.

She also revealed that so far the centre had trained over 2000 people across Africa while a great number of internal staff of the University both academic and non-teaching were sponsored by the centre to attend various trainings, conferences and workshops within and outside the country for capacity building thereby impacting positively on the development of the University.

On the area of research, the Director disclosed that through the grants it has received, the centre was able to conduct a number of researches which had so far published about 300 publications in high impact journals.

Professor Galadanci in particular said the most cheering of all the researches conducted was the e-Motive undertaken by her team which had surprisingly and swiftly adopted by the World Health Organization (WHO) as a global policy now.

"Ordinarily a research takes a minimum of between 10 and 20 years before it is being adopted as a policy by the World Health Organization, but the e-Motive finding was adopted within just six months of its presentation. This is to show how impactful our research to improving the global health care delivery is," she revealed.

According to her the successes recorded were not possible but for the support and assistance it has been receiving from the Management of the University.

Earlier, the team members were at the College of Health Sciences, in which they were received by the Provost of the College, Professor A'isha Kuliya Gwarzo. She disclosed that since the commencement of MBBS Programme, it graduated about 22 sets in addition to another 26 sets of Physiotherapy graduands.

The Provost equally disclosed that recently the Medical and Dental Council of Nigeria had increased the admission quota of the University for the MBBS programme from 150 to 180 per session. Although she said in view of the large number of applicants the 180 quota is grossly inadequate and therefore requesting for additional slots.

Other areas need attention in the College are the accommodation for rural posting for clinical students, provision of Multi-Purpose Laboratory, simulation centre

Prof. Hadiza S. Galadanci, Director ACEPHAP addressing the Council members during their visit to the centre

policy."

He spoke when he visited the Africa Centre of Excellence for Population Health and Policy (ACEPHAP), in which Hadiza was the Director of the centre. He noted that what she did has made the entire continent of Africa and the black race all over the world proud and elated.

"Even before our appointment as members of the Council, we had heard of this wonderful project by your team on e-Motive which touches the lives of many people especially in the developing countries. We are indeed excited for this breakthrough and we are whole heartedly associated with you for this unique programme," he declared.

Alhaji Gawuna, while applauding the commitment of Galadanci in the aspect of addressing the lingering problems associated with women in child delivery, assured of the Council's desire to support all the centres in the university with a view to achieving more milestones.

and a large lecture hall among others.

Responding, the Chairman of the Council, Alhaji Nasiru Yusuf Gawuna promised to wade in to the matter with a view to finding solutions to all the myriads of problem

AKTH Conducts Highest Kidney Transplant in Nigeria.....Says Professor Gajida

By Lamara Garba

Aminu Kano Teaching Hospital (AKTH) is the public hospital with the highest kidney transplant in Nigeria, the Acting Chief Medical Director of the Hospital, Professor Auwal Umar Gajida, has said.

Members of the Governing Council along with Management staff of the University in a group photograph with Management of AKTH

Speaking on Friday, 23rd August, 2024 when he received members of the University Governing Council and Management who visited him in his office, Professor Gajida explained that because of the successes recorded in this regard made other philanthropists to be donating facilities for kidney dialysis.

“For over two decades when we started the kidney project in this hospital, we have conducted successful transplants the highest by any public hospitals in the country and *Alhamdulillah*, AKTH has now been recognized globally

facing the College.

Other centres visited included the Centre for Infectious Diseases Research, in which the Director of the Centre, Professor Hamza Muhammad briefed the team on its operations. He said the centre was rated as one of the best in

for this feat,” he disclosed.

Professor Gajida expressed deep appreciation for the visit and assured that AKTH and BUK are one and the same.

According to him the hospital which has 700 bed spaces is committed to supporting the university to achieve its objectives.

The Acting CMD also disclosed that the hospital has just received a donation of 20 dialysis machines by a philanthropist which will go a long way is supplementing the efforts of the government in that direction. He revealed that the management of the hospital had recently established a pediatric care unit which takes care of the elderly.

In his response, the Pro-Chancellor and Chairman of the Council, Alhaji Nasiru Yusuf Gawuna commended the management of the hospital for the feat recorded and assured that the Council would do everything humanly possible to strengthen the relationship. He charged the management to keep the good things as AKTH has become a household name in health care system not only in Nigeria but globally.

Also speaking, the Vice Chancellor, Professor Sagir Adamu Abbas, said the AKTH Management has been very supportive to the University which had impacted positively in its quest to grow and prosper.

“The hospital has been availing us its facilities for our academic activities thereby making our medical students and other related allied programmes to be ready-made products after graduation.

AMR CLUB LAUNCHED ON BUK CAMPUS

By Ridwan Ajibade (intern)

The Antimicrobial Resistance Club (AMR) has been launched in Bayero University, Kano. The official launch took place on Thursday 22nd, August 2024 at Mahmud Tukur Theatre, Old Site. The club aimed at educating the students and the neighboring communities of Bayero University, Kano about antimicrobial resistance and to promote the fight against it.

In his opening remarks, the chairman of the occasion, Professor Musa Muhammad Borodo, Gastroenterologist Department, Aminu Kano Teaching Hospital, Bayero University, Kano, who was represented by Dr. Ibrahim Nashabaru, Deputy Director, African Centre of Excellence for Population and Health Policy (ACEPHAP), BUK, expressed appreciation to the team that formed the AMR Club.

Team members of the AMR Club in a group photograph with the dignitaries after the launch of the club

He stated that the club membership should be accessible to all students from various departments in the school and advocates for mass and intensive education on antimicrobial resistance.

The Dean, Students Affairs, Professor Shamsudden Umar congratulated the AMR for the launch and urged it to work towards achieving its stated goals.

In his address, the President of the AMR Club, Yahaya Lawan Muhammad Riminkebe, a final year student of Faculty of Pharmaceutical Sciences extended his appreciation to the participants and acknowledged the support gotten in the realization of the establishment and launching of the club.

He added that the AMR Club is looking forward to extending its membership to many students on Campus and the neighboring communities and assured the possibility since the club is a multidisciplinary one which could be joined by anybody from any department in the university.

"We will visit the council of ulamas (imams) and Muslim communities, pastors and members of the churches' congregations as well as Kano State School of Hygiene, Kano State College of Education and Preliminary Studies," the AMR Club President said.

The Secretary of the Club, Halliru Yakubu Muhammad recounted the history of the establishment of the club, which he said started with 4 students namely: Yahaya Lawan Muhammad Riminkebe from the Faculty of Pharmaceutical Sciences as President; Umar Hamisu Kofar Naisa; Head of Programmes Geography Education, Zahra'u Usman (Head of Finance); Accounting Department and Halliru Yakubu Muhammad from MBBS (Secretary).

He said the club has additional excos as Adamu Sulaiman Adamu (Pharmaceutical Sciences) head of Communication and Abba Abubakar (MBBS) Assistant

17th BUK Interfaculty Games Commence August 31

By Nura Garba

The much awaited 17th interfaculty games will commence on Saturday, 17th August, 2024 with a football match between Faculty of Education and Faculty of Engineering to mark the opening ceremony at the famous Adamu Mu'azu Stadium, New Campus at 2pm.

The Director of Sports, Professor Musa Garba Yakasai said all arrangements have been concluded for a hitch-free exercise, which the faculties will compete on 13 games. He added that draws for the competition also took place with the representatives of the faculties.

The Director added that the Vice Chancellor, Professor Sagir Adamu Abbas would declare open the competition, which would be an avenue to scout good athletes that would represent Bayero University in various competitions within and outside the country.

The Director used this opportunity to invite staff and

Secretary.

He disclosed that the AMR Club commenced its activities on July 16th, 2024 through community engagement where they visited some schools in Kano State about 400 students and teachers all together. They also reached out to over 40 individuals in Bayero University Campus.

After the launch, presentations were made. Dr Aisha Muhammad, Deputy Dean Faculty of Pharmaceutical Sciences, who is also the matron of the club made a presentation tagged "Bridging the Gap: Academia, Clinical Practice and Industrial Collaboration in the Fight against Antimicrobial Resistance (AMR said that antimicrobial resistance is when Microorganisms like bacteria, vira, fungi and parasites evolve to resist the treatment of antimicrobial and stated that World Health Organization (WHO) has estimated that AMR is responsible for 1.27 millions of global deaths in 2019 and it is projected to reach 10 million deaths per year by 2050 if it is not addressed.

She added that the Nigeria Center for Disease Control (NCDC) has announced that 263,400 deaths were caused by AMR in Nigeria in 2019 and the number of AMR's deaths in Nigeria is greater than other caused by some non communicable diseases like respiratory infections, tuberculosis, cardiovascular diseases among others.

Dr Muhammad further explained the causes and effects of AMR and highlighted the roles in combating it through research and development, mechanism studies and education, noting that the industry needs to help in fighting against AMR through diagnostic tools, therapeutics and active collaboration.

The interactive session featured impactful contributions from Dean Students Affairs, Prof Shamsudeen Umar, Dean Faculty of Pharmaceutical Sciences, Prof. Ibrahim Adamu Yakasai, Faculty Officer Pharmaceutical Sciences, Bilkisu Mohammad Yusuf all from Bayero University, Kano.

students to grace the opening ceremony.

After the opening ceremony, other games will continue.

Director of Sports, Prof. Rabi'u Muhammad
