Emir Sanusi Raises Alarm over Soaring Maternal Mortality Rate ...Calls for Urgent Action to Stem the Tide

By Bala G. Abdullahi

The Emir of Kano, Khalifa Dr. Muhammad Sanusi II, has expressed deep concern over the growing maternal mortality rate in Kano State. Describing it as a "national emergency" that requires immediate attention.

Delivering a keynote address at a round table/discussion on the outcome of the Kano State Surveillance for Evidence and Policy (KASSEP) project, on Monday, 13th January, 2025 at ACEPHAP Conference Room, Khalifa Sanusi emphasized the need for urgent action to address the alarming rate of the ugly cases in the state.

While commending the KASSEP team and the Kano State Government for teaming up to confront the menace, he suggested a holistic approach that would show serious commitment at the highest level of government.

The Emir warned that relying only on the outcome of KASSEP research would not lead to the eradication of the problem, advising that nutrition, which is key to human development needed to be included with a view to making the fight all encompassing.

He also said advocacy was another option in the effort to address the problem, pointing out that the advocacy should start with the members of the State Executive Council. "There should be commitment at the highest level. We need proper coordination as well as a steering committee at state level. If we do that, sincerely, we will change the negative narrative into a positive one," he remarked.

To address the menace of child mortality and stunted growth, the Emir suggested that proper nutrition should start at the age of two not four. He said at that the brain starts developing at that age. "If you wait until the child is four before you start proper nutrition, the impact would make on the development of the brain would have been too late. That is why we have child mortality arising from malnutrition and stunted growth."

On the holistic approach, the Emir stated that there was need to have an integrated system so that the traditional rulers (District Heads, Village Heads and Ward Heads) are fully involved. He said it would be the responsibility of the

traditional leaders to track data of pregnant women, number of children born and number of still birth. “As soon as a child is born, he must be fed with the required diet that will accelerate development of all essential components of his organs, especially the brain, insisting that nutrition is the key to addressing maternal and child mortality.”

In his address, the Vice Chancellor, Professor Sagir Adamu Abbas, who was the Chairman of the occasion, said maternal health was the cornerstone of societal well-being, adding that the KASSEP project with its focus on tracking maternal mortalities, safe deliveries, and stillbirths, shone a crucial light on the challenges and progress within Kano State.

Professor Abbas said the data and insights generated from the research were not just numbers; they represented lives, families and communities. He added that “there gathering

underscores collective commitment to addressing the challenges head-on, using evidence-based policies to derive meaningful change.

The Vice Chancellor was of the opinion that by understanding the patterns and causes of maternal mortalities, implementation targeted interventions would ensure better healthcare services, and ultimately save lives.

He thanked all the researchers involved in the project, healthcare workers, policymakers and stakeholders who tirelessly worked on the KASSEP project. Their dedication and expertise was driving force behind the initiative. “let us use today's discussion to celebrate our achievements, identify areas of improvements, and renew our resolve to make Kano State a safer place for every mother and child.

Building Bridges of Knowledge: Centre for Qur'anic Studies Hosts Imam Capacity Building Colloquium

By Ibrahim Ado Saleh

The Centre for Qur'anic Studies of Bayero University, Kano has hosted a colloquium on Imam Capacity Building, where it brought together renowned scholars and experts from diverse sects including *Tijjaniyya*, *Qadiriyya* and *Izala* to share their insights and expertise.

This collaborative event underscored the critical role of *imams* in guiding society, particularly in addressing the challenges posed by political and economic issues. Speaking while declaring the workshop open, on

Participants at the 2nd National Colloquium on *Imam* capacity building in a group photograph

Wednesday, 15th January, 2025 at Mahmud Tukur Theatre, the Vice Chancellor, Professor Sagir Adamu Abbas, who was represented by DVC Management Services, Professor Mahmud Umar Sani, expressed delight at the successful organization of the National Colloquium.

He commended the Centre for Qur'anic Studies for the collaborative effort involving the Management Committee of the Bayero University Kano (BUK) Mosques, Al-Istiqama University Sumaila, the National Council of Imams and the Kano State Shari'a Commission.

The Vice Chancellor, emphasized the fundamental role of Imams in society, describing them as custodians of the

most sacred institution in the Muslim community: the Mosque. Drawing inspiration from history, he reminded attendees of how mosques have historically been centres of learning and enlightenment, as exemplified by the likes of Shehu Usman Bn Fodio, Malam Abdullahi Gwandu, Sultan Muhammad Bello, and Nana Asmau, who were all products of mosque-based education.

Professor Abbas urged Imams to continue this legacy by transforming mosques into hubs of knowledge, moral guidance, and community development. He further highlighted the growing challenges posed by social media, which has become a tool for spreading immorality among the youth.

He called on Imams to leverage their voice and influence to address these issues, guiding the younger generation towards righteousness and social responsibility.

The Vice Chancellor charged the Imams to see their roles as not just spiritual leaders but as vital agents of societal reform and development, whose contributions can shape a brighter future for all.

Earlier, the Director of the Centre for Qur'anic Studies Professor Ahmad Murtala, disclosed that the event was designed to enhance the skills and knowledge of Imams and Islamic leaders.

He said it was a resounding success, even as participants praising the organizers for providing a platform for meaningful engagement and exchange of ideas, explaining that pursuit of knowledge and the quest for excellence are fundamental principles of Islamic tradition.

The Director gave an overview of the Center's mission, activities, and achievements. He began by highlighting the core purpose of the Center: to serve as a beacon for Qur'anic learning and to empower individuals with the skills and knowledge necessary to engage deeply with the Quran.

The Director expressed heartfelt gratitude to the Late Sheikh Khalifa Isyaka Rabi'u, whose vision, dedication, and generosity laid the foundation for this noble institution. He acknowledged Late Sheikh Khalifa Isyaku Rabi'u's pivotal role in building the center and prayed for Allah's mercy upon his soul, emphasizing that his legacy continues to inspire the center's work.

Part of the activities of the center comprises of the recently organized a rigorous six-month program that trained 240 Quranic reciters, focusing not only on enhancing their recitation skills but also on integrating practical skills such as farming to promote self-reliance and community contribution. A significant milestone was the successful graduation of 160 students from Somalia and Nigeria, celebrating their mastery of Quranic studies and commitment to spreading its teachings.

The event was graced by an impressive array of attendees, Professor Emiratus Muhammad Sani Zahraden, the DVC Research Professor Abdullahi Sule Kano, the Executive Secretary Shariah council Commission Dr. Yushau

Abdullahi Bichi, the Squadron Leader and the Chief Imam Nigerian Air Force Base Kano Central Mosque I.U Muhammad, Chief Imam Kano State Police Command CSP Abdulqadir Haruna.

The National Chairman Council of Imams Sheikh Nasir Muhammad who was also represented by Imam Badamasi Dan Taura and also BUK Chief Imam Sheikh Abubakar Jibril among others. This reflects the unity and diversity within the Muslim Ummah and the broader society.

In his welcome address Dr. Umar Ibrahim Indabawa said the gathering “stands as a demonstration to our shared commitment to fostering growth, understanding, and excellence within our communities.”

Highlights of the event was the presentation of award of honour to Murshid Professor Shehu Ahmad Sa'id Galadanci, Emeritus Professor Muhammad Sani Zahradeen, the Imam of Kano and the Chief Imam of BUK, Sheikh Abubakar Jibril for their selfless service and commitment to community development.

MDCAN-AKTH Visits VC BUK ... Commends Management on Power Supply, CONMESS, Others

By Suleiman Salihu

The Medical and Dental Consultants' Association of Nigeria (MDCAN), Aminu Teaching Hospital (AKTH) Branch, visited the Vice Chancellor Professor Sagir Adamu Abbas on Tuesday, 7th January, 2025, expressing gratitude towards the university's migration of its members to the CONMESS Salary structure.

In his remarks, the Chairman of the Association, Dr. Musa Bello Kofar Na'isa, said his team was at the Office of the Vice-Chancellor to pay homage as the tradition of every new executive committee of the association.

He added that visit was to seek the blessings of the University Management and also to familiarize with University community as to find ways to partner with University to improve the standard of Medical and Dental education offered by the University.

Dr. Kofar Na'isa highlighted that MDCAN is an umbrella associations of all Medical and Dental educators and specialists that were employed by the University. He said the memberships were spread over within 4 faculties and across the 18 faculties under the College of Health Sciences with 174 members with 72 Professors.

He said the all members were engaged in fulltime undergraduate and postgraduate medical and dental education as well as impactful high impact researches across national and international boundaries.

He commended the Management for addressing the problem of manpower by employing part-time lectures in the College, addressing the lingering issue of Consolidated Medical Salary Structure (CONMESS) and overcoming the perennial problem of power supply in the College, among other things.

Responding, the Vice-Chancellor, Professor Sagir Adamu Abbas, on behalf of the Management thanked the team for the visit. He appreciated them for providing services to the

University clinics. He said that the visit would promote the cordial relationship between the University and the AKTH.

On the issue of migrating to CONMESS, power supply and employment of part-time lectures, the VC said the implementation become necessary for him so as to improve the standards and wellbeing of staff and medical students in the hospital for the progress of the University.

Also speaking, the immediate past Chairman of MDCAN,

Members of Medical and Dental Consultants Association of Nigeria AKTH branch in a group photograph with BUK Management

Dr. Musa Usman Umar, appreciated the University Management for improving their wellbeing, he assured that they would continue to give out their best. He wished the Vice-Chancellor the best in stewardship of the University.

Other members at the entourage of the Chairman include; Dr. Hafsat Ibrahim Umar (Vice-Chairman), Dr. Kabiru Abdussalam, Dr. Rayyanu Muhammad Garba, Dr. Ahmad Bashir Umar and Dr. Suleiman Abdulrashid (Assistant Secretary General).

MSSN BUK Chapter Pays Courtesy Visit to Vice-Chancellor, Commends Management

By Ibrahim Ado Saleh

The *Shura* Council of the Muslim Students Society of Nigeria (MSSN), Bayero University Kano (BUK) Chapter, paid a courtesy visit to the Vice-Chancellor on Tuesday, January 7, 2025. During the visit, the council expressed their heartfelt appreciation to the university management for its unwavering support, which has significantly contributed to the society's

Members of MSSN Shura Council in a group photograph with BUK Management

growth and success.

The *Amir* Ustaz Musa Suleiman Rabi'u disclosed that the MSSN BUK Chapter, has been adjudged as the most vibrant nationwide, in which it was twice been selected to represent both Kano State and Nigeria in prominent events, further cementing its reputation for excellence.

He outlined the society's impactful activities on campus, emphasizing its commitment to student welfare and spiritual development. He mentioned that 20 students in need were provided with food items, while registration fees for 10 students were covered through funds raised by the society.

He also said the society organizes Islamic and political lectures, as well as *Da'wah* programs, aimed at enlightening and uniting the student body. However, the Amir highlighted that the society faces significant financial constraints, which hinder its ability to expand these initiatives. He appealed to the university management for financial support and the provision of a dedicated secretariat, noting that the current space is inadequate and serves multiple purposes, limiting the effectiveness of the society's operations.

In his response the Vice Chancellor Professor Sagir Adamu Abbas welcomed the *Shurah* as well as express his happiness of the activities carried out by the society, "You have done a wonderful achievement that is quite commendable and I urge you to continue with the this struggle". The VC has approved the release of Funds for the society in order to continue the virtuous activities in and outside the campus.

Similarly the VC chancellor promised to provide an alternative space for the society that will serve temporarily pending the completion of very big centre by ALFALAH foundation, which will be establish in BUK that will impact the lives of people on campus and Humanity at large. Finally the VC chancellor called on the society to include Peace in their daily congregational Prayer topic.

The *Shurah* Council members that visited includes the Amir Musa Suleiman Rabi'u, Malam Ahmad Mijinyawa Secretary from the Department of Computing and Malam Abdullahi Bn Umar from the Department of Political Science.

KASSEP Study Offers New Hope for Reducing Maternal, Child Mortality in Kano ...Says Professor Galadanci

By Bala G. Abdullahi

A groundbreaking research study conducted by Professor Hadiza Galadanci and her team at the Kano State Surveillance for Evidence and Policy has shed new light on the critical factors contributing to maternal and child mortality in Kano State. With the study's findings offering a roadmap for evidence-based interventions,

Professor Hadiza Shehu Galadanci who spoke at a technical meeting/discussion on the outcome of the Kano State Surveillance for Evidence and Policy (KASSEP) project which took place on Monday 13th January, 2025 at ACEPHAP Conference room she called for the immediate implementation of these research-driven solutions to break the cycle of maternal and child mortality in the state.

According to her, Kano State like most other regions in the country faced several healthcare challenges which included high maternal and child mortality and difficulties in accessing healthcare, particularly in rural areas.

Giving an overview of the KASSEP project, Professor Galadanci further stated that the top causes of the maternal and child mortality deaths are the social and cultural factors that interplay with the systemic challenges that Kano State faced, which are also not well characterized, and as such design of interventions to reduce maternal deaths and stillbirths was hampered.

The ACEPHAP Director disclosed that it was these challenges that the KASSEP study sought to address with a view to proffering solutions to the rising cases of maternal and child mortality in Kano State.

Participants during a Technical Roundtable discussion on KASSEP

On the method used for the success of the project, Professor Galadanci stated that the study employed a mixed methods approach to establish a sample registration system (SRS) that would be named Kano State Surveillance for Evidence and

Vol. XLIV No. 05 - Bulletin Friday, 17th January, 2025

Policy (KASSEP) in the LGAs of Kano state. She said a representative sample of clusters was drawn randomly to ensure representativeness across senatorial districts, urban and rural settings.

She explained that establishing the Sample Registration System would enable the study to engage in both a retrospective study (maternal deaths and stillbirths that occurred within the last 12 months before the study state date) and prospective study (maternal deaths and stillbirths that occurred with two years after the study start date). She added that the 2022 World Health Organization's Verbal Autopsy Instrument was adapted for the study for both the retrospective and prospective components of this study.

Professor Galadanci added that the objectives of the study were to understand the causes and the contextual factors associated with maternal deaths and stillbirths to provide Kano State with insights on program/policy intervention. She also said it would afford the government of Kano State the opportunity to utilize the findings of this research to speedily implement policy/actions that specifically accelerate the reduction of preventable maternal deaths by intensifying the scale of proven low-cost interventions via its structures and institutions (whether these be publicly or privately-owned).

Increased quality of care of the mother and baby-in-conception dead to accelerate the reduction of preventable stillbirths and understand the factors and drivers of (the lack or under-deployment of) women's agency in so far as these aggravate adverse maternal outcomes and deaths and use this evidence to shape policy and programs to drive reduction in preventable maternal deaths.

It is hoped that the Kano State Government would use the findings to reduce the maternal and child mortality in the state.

In her address, the KASSEP project coordinator, Dr. Fatima Mahmoud explained that the objective of the technical meeting was to discuss the current stage of the Kano State Surveillance

for Evidence and Policy (KASSEP) project, highlighting progress, challenges, and future plans. It would also discuss how the traditional community structure was leveraged in establishing a surveillance and tracking system for Maternal Child Health indicators as well as present KASSEP data management and dashboards and to also examine the relationship between KASSEP's maternal and stillbirth tracking and maternal and child nutrition, identifying opportunities for integration and improved health outcomes.

Also speaking, the State Commissioner for Health, Dr. Abubakar Labaran Yusuf thanked the KASSEP team under the leadership of Professor Galadanci for a job well done. He assured that the Kano State Government would set up a technical committee to study the findings with a view to ensuring full implementation.

He said to show Kano State Government seriousness and commitment to healthcare delivery, it recently paid its counterpart founding to the tune of 500 million naira to UNICEF. In his goodwill message, the Chairman of the Governing Council of North West University, and former Deputy Governor of Kano State, Professor Hafiz Abubakar described the KASSEP project as a right step in the right direction, but advised that as a nutritionist, he would support the position of His Highness, the Emir of Kano who insisted that nutrition must be added in the research work.

He said Nutrition remained the backbone of child growth, saying that if the child is not fed properly beginning at the age of two, there would be serious problem in later life, "that is, if the child is lucky to survive the feeding imbalance consequences."

Others who spoke at the meeting were: Dr. Iman Warshu, who spoke on Leveraging Community Leadership for Sustainable Impact, Malam Abdulrahman Ibrahim who introduced the Data Visualization Platform of the Project, Professor Baba Maiyaki Musa who spoke on utilizing KASSEP platform for Nutritional Surveillance and Improvement and Professor Salisu Maiwada Abubakar who spoke on behalf of the Nutrition Data Team.

Routine Sensitization of Faculties in the University by the Directorate of University SERVICOM

The Directorate of University SERVICOM will commence a sensitization and interaction with the Faculties, HODs, and Level coordinators of the University from Monday, 20th January, 2025.

The schedule for the visit is as follows:

S/N	Faculty	Day and date	Time
1.	<ul style="list-style-type: none"> • Faculty of Social Sciences, • Faculty of Computing, • Faculty of Art and Islamic Studies, • Faculty of Economic and Management Sciences 	Monday, 20 th January, 2025	11:00am

Transforming Nigeria's Future: Experts Converge to Explore Innovative Solutions

By Nura Garba & Ibrahim Ado Saleh

Experts from across the country converged at a national conference hosted by the Department of Science Technology Education on Monday, January 13, 2025, to deliberate on integrating innovative technologies and teaching strategies into the education system

The conference, which was the 3rd in the series held at the Musa Abdullahi Auditorium, themed "Innovative Technology and Pedagogy for Driving Best Practice and Sustainable

Participants at the National Conference on education in a group photograph

Development in Nigeria," provided a platform for educators, researchers, and stakeholders.

The event aimed to chart a course for sustainable development by equipping educators with the tools and methodologies necessary to foster excellence and address contemporary challenges in education.

In her address to the participants, the Honorable Minister of State for Education, Professor Suwaiba Said Ahmad, conveyed her profound happiness in being affiliated with the Department of Science and Technology Education. "This department symbolizes the same energy and dedication that defined my time and experience at BUK—a team that shares my passion for education and innovation," she noted. Represented by the Provost of the Federal College of Education, Bichi, Dr. Bashir Sabo Abubakar, the Minister commended the timeliness of this year's theme, "Innovative Technology and Pedagogy for Driving Best Practices and Sustainable Development in Nigeria." She described it as an excellent platform for sharing best practices, addressing challenges, and exploring new opportunities for collaboration in education.

Professor Jidderi Appointed Spokesperson of Northern Elders Forum

By Lamara Garba

The Northern Elders Forum (NEF) has confirmed the appointment of Professor Abubakar Jikka Jiddere of the Department of Political Science, BUK as its new spokesperson.

The Convener and Chairman of the Board of Trustees, Professor Ango Abdullahi (Magajin Rafin Zazzau), while approving the appointment said the forum recognises Professor Jiddere's competence and dedication to the cause of the Northern region.

In a statement by the Chairman of NEF's Management Board, Air Marshall Al-Amin Daggash (Rtd), it described Professor Jidderi

Furthermore, she reiterated the Ministry of Education's commitment to aligning teacher education program curricula with global standards and best practices, ensuring that educators are equipped with the tools and knowledge to foster sustainable development and drive innovation in their classrooms.

In his remark the Vice Chancellor Professor Sagir Adamu Abbas, who was represented by the Deputy Vice Chancellor Management Services, Professor Mahmud Umar Sani emphasized the university's commitment to its mandate of promoting educational activities such as conferences and seminars. He highlighted the significance of such gatherings, noting that they bring together individuals from diverse backgrounds to exchange ideas and provide solutions to pressing issues.

Professor Sani expressed his hope that the papers presented during the conference would be thoroughly discussed, particularly in addressing emerging innovations such as artificial intelligence (AI) and technological advancements. He urged participants to ensure that the knowledge shared does not merely remain archived but is actively utilized to inform policy and decision-making processes. Gratefully acknowledging the presence of policymakers at the event, he noted their participation as a key factor in translating academic insights into actionable policies that will drive sustainable development.

In his remarks, the Dean of the Faculty of Education, Dr. Abubakar Ibrahim Hassan, provided an insightful overview of the history and progression of the National Conference. He noted that the inaugural conference was held in February 2018 with the intention of making it a bi-annual event, but this schedule was disrupted by the challenges posed by the COVID-19 pandemic. The second conference eventually took place in 2022, marking the resilience and determination of the faculty in maintaining its commitment to academic excellence.

Dr. Hassan also shared a brief history of the Faculty of Education, highlighting that it began as the Department of Education under the auspices of the then Abdullahi Bayero College, Kano, established in 1962. This rich legacy, he explained, has been a cornerstone of the faculty's dedication to fostering educational innovation and excellence over the years.

The conference featured Professor Ibrahim Danjuma from ATBU Bauchi as the keynote speaker, delivering a compelling address that set the tone for the event. Lead paper presentations were delivered by distinguished academics: Professor Abubakar Sadiq Bappah from ATBU Bauchi and Professor Isa Shehu Usman from the University of Jos

as a distinguished academic with a track record of excellence and commitment.

Born in 1965 in Jalingo, Taraba State, Professor Jiddere has an impressive academic and professional background. He attended Muhammadu Nya Primary School, Jalingo; Marmara Government Secondary School, Wukari (1979–1984); College of Preliminary Studies, Yola (1984–1986); B.Sc. in Political Science, Bayero University, Kano (1986–1989); M.Sc. in International Relations and Strategic Studies, University of Jos (1990–1993); Ph.D. in Political Science, Bayero University, Kano.

Professor Jidderi joined the services of Bayero University, Kano as an Assistant Lecturer in the Department of Political Science in

1993 where he rose to become a Professor of International Relations; He also served the nation during his National Youth Service at the 82 Division of the Nigerian Army, Enugu (1989–1990).”

Jiddere took over from Abdul-Azeez Suleiman, who now works as Director of NGOs and CSOs for the Northern Elders Forum.

Speaking shortly after the announcement, Professor Jiddere expressed gratitude for the offer and reaffirmed his commitment to the goals of the Northern Elders Forum.

“I wish to state that I have humbly accepted my new appointment and responsibility as the spokesperson of the Northern Elders Forum,” he

Prof. Abubakar Jika Jiddere

declared.

The Forum is a non-partisan organisation dedicated to articulating the collective interests of Northern Nigeria while fostering unity and national development across the country. I pray for Allah's guidance and protection throughout my tenure and beyond.”

The Northern Elders Forum reiterated its role as a non-partisan organisation focused on advocating for the interests of Northern Nigeria while promoting unity and development in collaboration with other regions of the country.

The Forum congratulated Professor Jiddere on his appointment and wished him success in the discharge of his duties.

Directorate of Research Innovation and Partnership (DRIP)

The Directorate of Research Innovation and Partnership (DRIP) wishes to announce to the University community that the Tertiary Education Trust Fund (TETFund) has approved Institution Base Research (IBR) grant for the years 2023-2024 (merged) TETFund Research Project (RP) in respect of the under listed staff of the University.

The total grant accessed amounts to eighty seven million, seven hundred and eighty nine thousand two hundred and forty five naira, and seventy eight kobo only. (₦87,789,245.78) for forty five research projects. (45).

Access to the Biomedical & Life Sciences Collection

This is to inform the University community that Bayero University, Kano has received a subscription access to the Biomedical & Life Sciences Collection through the Henry Stewart Talks Ltd (HSTalks) agreement with the Human Genome Organization (HUGO).

The Biomedical & Life Sciences Collection has gone from strength to strength in 2024 with new content added across a host of different disciplines.

In this regard, the University Library hereby requests the faculty and students to follow the guidelines below to access the collection:

(1) Automatic access while on campus. Once logged in you can create your personal account using your institution address.

(2) Offsite access by creating a personal account

To create a personal account while off campus:

Select Bayero University Kano from the list on the login page. Then click on Proceed to Login Page. You will then be able to

create an account, which will allow you to login from any location and on any device.

Please note that you must use your institutional email address when creating the account.

The Biomedical & Life Sciences Collection URL for users: <https://hstalks.com/biosci/>

They also publish new content each month, and you can sign up for updates here.
