CDA-BUK Hosts 5th International Conference on Drylands, Highlights Rangeland Sustainability

By Nura Garba & Suleiman Salihu

The Centre for Dryland Agriculture (CDA), Bayero University, Kano, hosted its 5th International Conference on Drylands from Tuesday, 6th to Thursday, 8th May, 2025, at the CBN Centre of Excellence, BUK New Campus.

The Vice-Chancellor, Professor Sagir Adamu Abbas, represented by the Deputy Vice-Chancellor Academics, Professor Haruna Musa, welcomed participants including policymakers, researchers, and stakeholders from various regions. He described the conference theme as timely,

research centers in West Africa. He congratulated the University Management and the Centre's Director for their work in enhancing the CDA's capacity and relevance, adding that the conference theme resonates with the current needs of dryland regions.

Delivering the keynote address, Professor John F. Morton of the Livelihoods and Institutions Department, University of Greenwich, United Kingdom, spoke on "Pastoralist Research and its Impact: Some Reflections for the International Year of Rangelands and Pastoralism." He

Cross section of participants at the CDA Confab

given the growing concerns around rangeland ecosystems, land degradation, and regional insecurity.

Professor Abbas commended the CDA team for their dedication to organizing the event, and wished attendees productive deliberations and a pleasant stay in Kano.

The Chairman of the occasion, Prof. Abubakar Adamu Rasheed, *mini* praised the CDA as one of the leading

addressed issues such as livestock security, climate adaptation, policy challenges, research priorities, governance, and the dynamics between market and environment.

In his welcome address, CDA Director Professor Jibrin Muhammad Jibrin greeted all stakeholders and collaborators, noting that the conference theme,

“Promoting Sustainability and Resilience of Rangelands: Present and Outlook,” reflected a collective effort to support pastoral communities and dryland systems, which are crucial to livelihoods and ecological stability in the Sahel and beyond.

He recalled that the CDA was established with support from the MacArthur Foundation and Agence Française de Développement (AFD), and has evolved into a regional hub for research, innovation, and capacity-building in dryland agriculture.

Professor Jibrin expressed hope that the conference would go beyond academic discussions to inspire practical policies, scalable technologies, and long-lasting partnerships.

One of the key sessions featured a panel titled “Reflection to Action – Reimagining Nigeria's Rangelands for

Resilience and National Food Security,” chaired by veteran journalist and Special Assistant to the President on Media, Malam Abdul'aziz Abdul'aziz, with contributions from experienced stakeholders in rangeland management.

A highlight was the lead paper presentation titled “A Breakthrough in Rangeland Condition Assessment: Quantifying Human Impacts on Rangeland Vegetation Productivity through the Relative Productivity Index” by Professor Andrew M. Cunliffe from the University of Exeter, United Kingdom.

In his vote of thanks, Local Organizing Committee Chairman, Professor A.S. Barau, appreciated all participants for their robust engagement throughout the conference.

The event featured technical sessions and goodwill messages from partners, collaborators, and dignitaries from within and outside Nigeria.

Bayero University Kano Achieves Resounding Success in 2024 NUC Accreditation

By Lamara Garaba

Bayero University, Kano (BUK) has recorded a remarkable milestone following the recent National Universities Commission (NUC) accreditation exercise carried out in October and November 2024.

A total of 53 academic programmes, spanning undergraduate and postgraduate levels, were evaluated—and every single one received full accreditation.

The extensive assessment covered faculties including Administration, Agriculture, Allied Health Sciences, Arts, Computing, Education, Engineering, Medicine, Pharmacy, Science, and Social Sciences.

According to a statement signed by the University Registrar, Malam Haruna Aliyu explained that the successful outcome marks a significant step forward for BUK in maintaining its reputation for academic distinction and high standards in programme delivery.

In the administration, 13 programmes were reviewed, including postgraduate degrees such as Master of Public Administration and MBA Business Administration, all of which received accredited status. Undergraduate courses in Accounting and Taxation were awarded accreditation.

The Faculty of Agriculture secured full accreditation for its Fisheries and Aquaculture programme, while the Allied Health Sciences Faculty achieved the same result for Environmental Health Science.

In Arts, programmes including Arabic Studies, French, Hausa, History, and Shariah all earned full accreditation, as did Forensic Science in the Computing Faculty.

The Faculty of Education emerged with 14 programmes, all fully accredited, including Early Childhood Education, Education Biology, and Library and Information Science.

Equally the Faculty of Engineering had programmes including Civil, Computer, Electrical, and Mechanical—all maintained full accreditation.

This remarkable success underscored the faculty's strong technical foundation.

Similarly, the prestigious Medicine and Surgery programme, along with Pharmacy, have all secured full accreditation.

In the area of Science eight disciplines including Biochemistry, Industrial Chemistry, and Microbiology. In the same vein, Geography, Meteorology, Political Science, and Sociology were all confirmed to meet NUC's criteria and got full accreditation status.

VC, Prof. Sagir A. Abbas stressing a point

This clean sweep is seen as a clear result of BUK's long-term investment in staff development, academic infrastructure, curriculum design, and research initiatives. It reflects the University's vision to remain a leading center of learning and innovation in Nigeria and beyond.

The statement also explained that each programme's accreditation is valid for five years, assuring students and stakeholders of the quality and credibility of their chosen fields.

This recognition by the NUC ensures that graduates from these programmes are equipped with qualifications that are

nationally accepted for employment, further studies, and participation in the National Youth Service Corps (NYSC).

The Vice-Chancellor Professor Sagir Adamu Abbas while expressing happiness for the development however, extended his appreciation to the Deans, Heads of Departments, faculty, non-academic staff, and students who played a vital role in this accomplishment.

He also thanked the NUC for its thorough and supportive approach to quality assurance.

"As the University celebrates this academic milestone, we want to reaffirm our commitment to continue delivering quality education, advancing research, and fostering meaningful engagement with society," said the Vice Chancellor.

The statement also appealed to prospective students, families, partners, and the global academic community are encouraged to share in this achievement and contribute to BUK's mission of expanding knowledge and driving innovation.

BUK, Open University of Mauritius to Collaborate on Academic Exchange, Research

By Lamara Garba

In its efforts toward strengthening international academic ties, Bayero University, Kano (BUK) and the Open University of Mauritius (OUM) are poised to establish a far-reaching collaboration that will focus on joint academic programmes, research initiatives, and staff development.

This was disclosed by Dr. Belle Louis Jinot, a senior official from the Open University of Mauritius, during his courtesy visit to the Vice-Chancellor of BUK, Professor Sagir Adamu Abbas, on Tuesday, 6th May, 2025.

Dr. Jinot, who is currently undertaking a two-week academic fellowship in education at BUK, stated that discussions between the two institutions have reached an

"The facilities here at BUK are world-class, and the enthusiasm of both staff and students is highly commendable," he remarked. "It is clear that the university is dedicated to continuous growth and regional leadership in higher education. We at the Open University of Mauritius are excited about building a lasting and mutually beneficial partnership."

Professor Sagir Adamu Abbas, in response, expressed profound gratitude to Dr. Jinot for the visit and acknowledged the value of the proposed collaboration. He noted that BUK places great importance on international partnerships that enrich its academic offerings and research profile.

"We sincerely appreciate your visit and the interest your institution has shown in working with us," he said. "Bayero University is committed to building strong academic alliances, and we will work closely with the Open University of Mauritius to make this collaboration a success."

As part of his fellowship, Dr. Jinot participated in several academic activities including serving as an external examiner and presenting a seminar on *Gamification in Open and Distance Learning*, which was well-received by faculty members and postgraduate students. His insights on integrating game-based elements into educational design sparked engaging discussions on innovative teaching methods suitable for the African context.

Looking ahead, both institutions have agreed to draft a Memorandum of Understanding (MoU) to formalize their partnership. Key areas of focus will include joint research centres, collaborative online learning platforms, staff and student exchange, and joint academic conferences. The goal is to create a model of cross-border cooperation that enhances capacity and fosters resilience within African higher education systems.

The visit and the outcomes of Dr. Jinot's fellowship emphasize the growing momentum for intra-African academic partnerships that transcend borders and institutional silos. Stakeholders from both BUK and OUM expressed optimism that this collaboration would set the stage for more impactful engagements between African universities in pursuit of quality education and sustainable development.

VC, Prof. Sagir A. Abbas (3rd from right) in a group photograph with visiting Dr. Belle Louis Jinot (3rd left) along with the Registrar, Malam Haruna Aliyu, Director Centre for Open and Distance Learning, Prof. Kabiru Bello Dungurawa and other senior Academics from the Faculty of Education

advanced stage and are aimed at fostering mutual growth in key academic and developmental areas.

He said the collaboration would provide a platform for joint research, academic exchange, and innovation-driven projects, particularly in the fields of open and distance learning, digital education, and pedagogical development.

During his stay, Dr. Jinot toured several faculties and centres within the university, including the Centre for Teaching and Learning, the Open and Distance Learning Centre, the Faculty of Education, the Centre for Dryland Agriculture, and the Directorate of Academic Planning. Impressed by the level of infrastructure and academic culture, he commended the BUK management for what he described as "a remarkable commitment to excellence, innovation, and inclusive education."

5th International Drylands Conference Calls for Bold Reforms, Inclusive Investment, and Stronger Action to Revitalize Rangelands

By Fausat A. Opayomi

The 5th International Conference on Drylands, hosted by the Centre for Dryland Agriculture (CDA), Bayero University, Kano, concluded with a powerful appeal to governments, policymakers, and stakeholders to take urgent and coordinated steps to restore degraded rangelands, protect pastoralist livelihoods, and strengthen climate resilience across dryland regions.

Held from 6th to 8th May 2025 under the theme “*Promoting Sustainability and Resilience of Rangelands: Present and Future Outlooks*”, the three-day event drew over 300 participants, including scientists, researchers, development practitioners, policymakers, and private sector representatives. Attendees came from 11 African countries, 13 Nigerian states, 17 academic institutions, and

Former ES NUC, Prof. Abubakar Adamu Rasheed, *mni*, Chairman of the Occasion introducing the Keynote Speaker, Prof. John Morton

several international organizations, making the conference a dynamic forum for dialogue, collaboration, and idea-sharing.

In a communiqué issued at the close of the conference, participants called for the development and implementation of inclusive, evidence-based legal frameworks that prioritize responsible rangeland management. They advocated for policies that value and protect the traditional knowledge and practices of pastoralist communities, while guaranteeing fair access to land and natural resources. These frameworks, they argued, must ensure secure land tenure and transparent resource governance to support peaceful co-existence and reduce conflict over land use.

A major outcome of the gathering was the acknowledgment of the essential role that women and youth—especially those within pastoralist communities—play in building resilience. The conference recommended targeted investments in capacity-building, active involvement in decision-making, and support for income-generating ventures and resource development initiatives that benefit these groups.

Participants also stressed the need to expand investment from both the public and private sectors in climate adaptation strategies, land restoration technologies, and diversified livelihood programs. These efforts, they noted, should be supported by demand-led research and the integration of local knowledge with scientific innovation to generate tailored, practical solutions.

Recognizing the interconnected nature of dryland challenges, the conference called on development partners and international organizations to direct their efforts in line with the conference's outcomes and promote broader regional and global cooperation, especially around shared resources and cross-border issues. There was strong advocacy for deeper engagement with initiatives such as the U.S.-led Vision for Adapted Crops and Soils (VACS), launched at the 2023 United Nations General Assembly, as well as the Africa Soil Initiative and related programs.

The private sector was urged to identify investment opportunities in rangeland-focused enterprises that balance profitability with environmental stewardship and social impact. Participants highlighted the potential of such enterprises to drive sustainable economic growth while preserving ecosystem functions.

The participants noted that the worsening condition of rangelands, the mounting challenges faced by pastoralists, and the increasing environmental pressures on drylands require more than policy talk—they demand urgent, collective, and ongoing action. Participants emphasized that restoring rangelands is essential for securing food supplies, maintaining ecological stability, and fostering peaceful communities.

In this spirit, the conference encouraged all stakeholders to harness the opportunity presented by the International Year of Rangelands and Pastoralists (IYRP) 2025. This global initiative, they said, offers a critical platform to raise awareness, build partnerships, and amplify action to ensure a sustainable future for rangelands in Nigeria, across the African continent, and globally.

The conference received support from several prominent organizations including the International Centre of Insect Physiology and Ecology (icipe) via the Regional Scholarship and Innovation Fund (RSIF), the International Maize and Wheat Improvement Center (CIMMYT), the International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), the International Institute of Tropical Agriculture (IITA), the International Livestock Research Institute (ILRI), PACET, Nigeria's Federal Ministry of Agriculture and Food Security, Federal Ministry of Environment, Ministry of Livestock Development, and the Commonwealth Geographic Bureau (CGB).

Among its core objectives, the conference aimed to share cutting-edge research and practical insights on rangeland restoration, deepen engagement among key actors—including policymakers, researchers, pastoralists, and civil society—and identify concrete strategies to

strengthen climate adaptation, food systems, and peace in dryland areas. It also sought to cultivate partnerships that can drive research, influence policy, and build capacity across Africa's dryland ecosystems.

BUK Registrar Mal. Haruna Aliyu Receives Prestigious Workers' Day Award for Exemplary Leadership

By Lamara Garba

In a moment of immense pride and inspiration, the Registrar of Bayero University, Kano, Malam Haruna Aliyu, was honoured with a distinguished merit award by the Kano State Councils of the Nigeria Labour Congress

Governor of Kano State Alhaji Abba Kabir Yusuf supported by the Deputy Governor, Comrade Aminu Abdul Salam Gwarzo presenting the award to BUK Registrar, Malam Haruna Aliyu

(NLC) and the Trade Union Congress (TUC). The recognition came during the 2025 Workers' Day celebration held on Wednesday, 1st May.

The award, presented personally by the Executive Governor of Kano State, Alhaji Abba Kabir Yusuf, acknowledged Malam Aliyu's outstanding contributions to public service, marked by his human-centered leadership, dedication to staff welfare, and commitment to

administrative excellence.

Speaking at the event, Governor Yusuf praised the awardees for their exceptional service and exemplary conduct, noting that their selection was based on merit and integrity. He urged them to view the honour as a call to further dedication and service, reaffirming his administration's commitment to improving the welfare of workers and the broader citizenry of Kano State.

The recognition of Malam Haruna Aliyu, a respected figure in academic administration and a role model to many, added a deeper sense of pride to the celebration. His honour was not only a personal achievement but a moment of collective joy for the university community and beyond.

Indeed, the 2025 Workers' Day stood out — not just as a tribute to the Nigerian workforce, but as a celebration of visionary leadership that continues to make a tangible difference in the lives of others.

Speaking shortly after receiving the award, Alhaji Haruna Aliyu expressed gratitude to Almighty Allah for making him amongst the awardees. He dedicated the award to the entire staff of Bayero University.

Malam Haruna while appreciating the special recognition also reaffirmed his commitment to put more efforts in the service of the public. “This will spur me to do more *In sha Allah*”.

Putting Kano on the Global Biodiversity Map: Leveraging the iNaturalist Platform

By Haidar Aliyu Abubakar

Kano city made a maiden appearance in the City Nature Challenge (CNC) 2025. The CNC is a global challenge across cities to map flora and fauna biodiversity, it is an invaluable tool which can be used to monitor the health of biodiversity in terms of abundance, richness and endangered species in cities.

The convener, Dr UmmuKhulthum Mohammed of the Department of Environmental Management, highlighted the importance of biodiversity conservation, stressing that rich biodiversity is an indicator of a healthy ecosystem. Many species are being threatened unnoticed she added, hence the need to leverage the iNaturalist Application, which has the potential to provide valuable data for researchers.

Speaking at the event, The Dean Faculty of Earth and Environmental Sciences, Prof. Abdulazeez Umar Raji expressed his delight with the initiative, he emphasized the need to domesticate the platform, he also assured of the faculty's readiness to collaborate on the project.

Dr. Ummu-Khulthum Mohd presenting her address

Other speakers at the event include Prof. L.F. Buba and Dr. Muslim Idris, both of whom challenged the convener to ensure that inferences are drawn from the data collected globally for local benefits.

MSSN-BUK *Shurah* Council Visits FAIS, Commends Dean Satatima for Support and Ramadan Initiatives

By Suleiman Salihu

The *Shurah* Council of the Muslim Students Society of Nigeria (MSSN), Bayero University, Kano Chapter, paid a courtesy visit to the Faculty of Arts and Islamic Studies (FAIS) on Monday, 5th May, 2025, where they presented a letter of appreciation to the Dean, Professor Ibrahim Garba Satatima.

The Ameer of MSSN-BUK and Chairman of the *Shurah* Council, Malam Muhammad Salihu from the Department of

Executives of MSSN-BUK in a group photograph with Dean FAIS, Prof. Ibrahim Garba Satatima

Islamic and Sharia Studies, explained that the visit was part of the new executive committee's 'Stay-back' initiative. He stated that the initiative was designed to allow the new administration to reach out to stakeholders, mentors, and University management for guidance and support.

He expressed gratitude to the Dean for his consistent commitment to the Society's growth, particularly in facilitating a functional and sustainable Iftar welfare system during Ramadan

In his response, Professor Satatima appreciated the visit and acknowledged the Society's large following, noting that MSSN had over 25,000 student members at the University. He encouraged the leaders to be inclusive in their welfare programs, especially during feeding events, and prayed for divine guidance in their activities.

The Dean assured the students of his continued support and open-door policy to encourage further progress of the Society and the University.

Also speaking, the Deputy Dean, Professor Dalha Waziri, offered counsel on the significance of trust (Amana) in leadership. He emphasized that accepting a leadership role entails a duty to act responsibly and with integrity. "You will surely be held accountable for your actions," he reminded them.

A highlight of the event was a poem delivered in Arabic by Malam Abdulaziz Mukhtar of the Da'awah Committee. He recited, "We love and appreciate meeting with you; it is a blessing for us and remains etched in our memories."

The Ameer was accompanied by MSSN executives including Secretary Muhammad Auwal Aliyu, Ameerah Zainab Ismail, Al-Amin Abdullahi Aliyu, Mohammed Idris Abdullahi, Yusuf Aliyu Garba, Naibatul-Ameerah Habiba Abubakar Ishaq, Aisha Haruna, and Chairperson of the Da'awah Committee, Masturah Abdulrazaq, among others.

The visit concluded with the presentation of a letter of appreciation to Dean Satatima for his significant contributions to the Society's activities.

Bloomsbury to Publish Groundbreaking New Book: Hausa Cinema: Cultural Imperialism and Censorship

Publication Date: July 2025

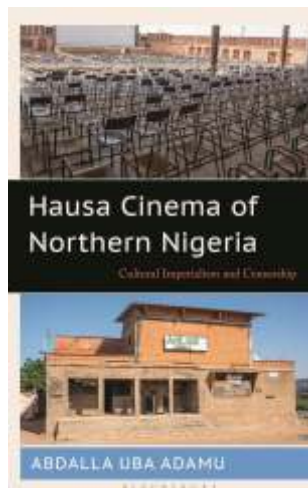

Bloomsbury Publishing announces the release of *Hausa Cinema: Cultural Imperialism and Censorship*, a compelling new work by Abdalla Uba Adamu, of the Department of Information and Media Studies, scheduled for publication in July 2025. The book offers a bold and timely examination of the cultural, political, and religious dynamics shaping the Hausa-language film industry, often referred to as "Kannywood," based in Northern Nigeria.

Bringing together critical perspectives from media studies, postcolonial theory, and African cultural history, *Hausa Cinema: Cultural Imperialism and Censorship* explores how local filmmakers navigate the pressures of globalization, internal conservatism, and state-imposed censorship. With rich ethnographic detail and analytical depth, the book, the first of its kind at this level of scholarship, sheds light on how Hausa cinema has become a contested space of identity, resistance, and negotiation. Rather than focusing solely on the popular commercial industry known as "Kannywood," Prof. Adamu takes a broader approach, examining Hausa cinema in its many forms—including diaspora productions,

documentaries, art films, and digital series.

Published by Bloomsbury, an internationally acclaimed independent publishing house known for literary and academic excellence, this book is a vital addition to current debates on African media, Islamic culture, and global cultural flows. A review by **Prof. Graham Furniss**, Professor Emeritus, of the School of Oriental and African Studies, University of London, states:

"Theoretically informed and encyclopedic in his knowledge of Hausa and Hindi film, Abdalla Uba Adamu, the doyen of contemporary Hausa cultural studies, has produced a magnum opus of great authority. Throughout this book, he covers the growth of Hausa film, its relationship with Hindi film, media flow and the changes in technology that powered growth and change as well as the individual and organizations that sought to grow or suppress the industry. This gem of a book will open new vistas for

those interested in international cultural flows, the cultural dynamics of northern Nigeria, and the broader Hausaphone world.” (Graham Furniss, Professor Emeritus, SOAS, University of London, UK).

Another review by **Prof. Brian Larkin**, professor of Anthropology, University of Columbia, New York also states:

“For two decades, Abdalla Uba Adamu has been the leading analyst of film culture in northern Nigeria. This magisterial work traces the origin of Hausa film, its rise to dominance, the controversies and censorship it provoked and the new direction it is taking.”

This is not the first time Prof. Adamu has published with Bloomsbury. In 2019 he contributed two entries to the Bloomsbury *Encyclopedia of Popular Music of the World*,

Volume 12: Genres: Sub-Saharan Africa in which he contributed on Hausa Popular Music, Hausa Hip-Hop and Hausa Filmi Music.

With this announcement, and at 420 pages, Hausa cinema gains its most comprehensive and scholarly treatment, firmly placing it in the global conversation about media and culture.

The book is priced at \$130 (one hundred and thirty US dollars) hardback, and \$117 Ebook PDF. Due to this possible purchasing barrier, Prof. Adamu plans to publish a locally accessible companion book titled **Kannywood: A Brief Introduction** later this year in Kano. It will be tailored for readers interested in a concise, less theoretical overview of the development of Hausa cinema.

NOTICE OF 2025 PROMOTION EXERCISE

This is to notify Provosts, Deans of Faculties/Schools, Directors and Heads of Department/Unit that the following Time-Table for the 2025 Promotion Exercise has been approved for your compliance.

S/N	DATE	ACTIVITY
1	Monday 9 th to Friday 20 th June, 2025	Latest Date for Departmental, Faculty and College A&PCs Meetings.
2	Monday 23 rd – Friday 27 th June, 2025	Latest Date for Colleges \Faculties to make Submissions to the Secretariat.
3	Monday 30 th June- Friday 18 th July, 2025	Secretariat to Collate and prepare submissions for the Central A& PC.
4	Monday 21 st –Friday 25 th July, 2025	Central A&PC TO Meetand Consider the cases.

Heads of Department should please note the following:

- That staff to be recommended for promotions must have served for at least three/four years as the case may be in their positions by 30th September, 2025 and their appointments duly confirmed;
- That cases of administrative staff in various Faculties/Department should be routed through the Registry Departmental Appointments and Promotions and General Purposes Committee;
- That cases of Bursary Staff/Stores Officers in various Faculties/Departments should be routed through the Bursary Department;
- That cases of Librarians and Library Officers in various Faculties/Departments should be routed through the University Librarian;
- Cases of Academic Staff and Technologist must pass through the Departmental, Faculty and or School/College A & PC and Minutes of Meeting of the School/College/Faculty/Appointments and Promotions Committee should be attached to the recommendations;
- Cases of all Faculties under the Colleges should be coordinated for submission by the provosts;
- Academic staff on approved Study Fellowship could be promoted up to the rank of Lecturer 1 or equivalent, provided that he/she would not be promoted twice in one fellowship period;
- All submissions should be strictly based on the extant guidelines for the appropriate cadres; Provost and Dean must ensure compliance as the case may be.
- Schools, Colleges and Faculties are to forward a soft and **ONE (1)** hardcopyoftheir Submissionstothe Director, Establishment Matters not later than **27th June, 2025**.
- Original documents for sighting during the meeting should not accompany the submission to the Secretariat.
- Provosts, Deans and HODs should ensure that all documents for presentation at the A&PC are properly TAGGED and ARRANGED according to the CV for case of reference.**

MORE BLESSINGS DEAR

For Professor Rabi

We witnessed many milestones together
I am happy for the woman I love much
You have been an excellent wife to count
I am so proud that you earn professorship

Often I wonder, where the perceived haughtiness
Of those women who have high qualifications or
Those who have achieved something in life is kept
For, my Rabi, has none of those disorders of the
educated

She is to me a wife and always appears so
Even when I prick the intellectual side of this girl

She remain that innocent girl I
loved in secret
She is not mean to share her
knowledge and expertise
She devoted herself to our progress without
reservation
Our children are lucky with this wonderful
woman as mother
We are so blessed by her presence in our lives,
no doubt
May Allah bring more happiness and blessings
in our homes.
Congratulations on your promotion my love.
